Alva's Institute of Engineering & Technology, Moodbidri.

5 Days Certification on

Leadership skill training

From 25th Aug to 29th August 2023

Organized by

Department of Artificial Intelligence & Machine Learning.

ABOUT THE INSTITUTION:

Alva's Education Foundation (AEF) established in 1995 with the vision of our Chairman Dr. M. Mohan Alva has succeeded in making Moodbidri, an Educational hub in the South Canara Region, with more than 25000 students pursuing various courses ranging from primary school to post- graduate courses in social sciences, pure sciences, engineering and management. There are 21 institutions functioning under the Alva's Education Foundation.

Alva's Institute of Engineering and Technology, Moodbidri is a Premier Engineering Institute of Alva's Education Foundation, established in the year 2008. The college is certified to the ISO 9001:2008 standards. The institute offers top quality education in eight under graduate programs in Engineering AIML , CSD , AGRI, Computer Science, Civil, Electronics & Communications, Information Science, Mechanical Engineering , Three Post Graduate programs- Master of Technology in Thermal Power Engineering, Computer Science & Engineering, VLSI Design Embedded System and Master of Business Administration.

Coordinators:
Mr. kiran Raj KM ,
Dept of AIML, AIET,
Moodbidri.

ABOUT THE INSTITUTION:

Artificial Intelligence and Machine Learning Department was inducted into AIET formally during 2020-21 under the flagship of Visvesvaraya Technological University (VTU), Belagavi with an intake of 60 students per year. AI & ML, itself is a broad technological ecosystem in the engineering world of academics and research leading to interdisciplinary innovations. Though a fascinating course relatable to real world innovations of the AI realm viz., Amazon's Alexa, Google assistant, Apple's Siri, Microsoft's Cortana etc. by the young minds, there is a serious effort made by the department to dwell upon the foundations of the AI & ML course. The areas focussed in the course of AI & ML would be creating algorithms and developing scientific understanding for a wide range of topics including computer vision, speech and audio processing, natural language processing, machine learning and learning theory, and cognitive systems, on a broader sense.

VISION:

Foster competent professionals by instilling knowledge and skills in the Artificial Intelligence and Machine Learning realm to cater needs of industry and community.

MISSION:

To strengthen the assimilation process of concepts in AI & ML through experiential learning.
To create a better Academia-Industry liaison by means of skill enhanced training.
To develop a support system for Research and Development for broader application in AIML domain.
To promote Entrepreneurial culture through interaction with collaborative knowledge partners.

COURSE CONTENT:

i) To impart skills among the workers systematically so that they may learn quickly.
ii) To bring about change in the attitudes of the workers towards fellow workers, supervisor and the organization.
iii) To improve the productivity of the workers and the organization.
