CERTIFICATE

This is to certify that the DBMS Mini Project entitled **"PRISION MANAGEMENT SYSTEM USING RRN"** has been successfully completed by

ANAND M RASTAPUR	4AL20IS005
C H RAKESH	4AL20IS009
SRUSHTI SHIVANAND KUMATHE	4AL20IS048

the bonafide students of **Department of Information Science & Engineering, Alva's Institute of Engineering and Technology** in **DEPARTMENT OF INFORMATION SCIENCE & ENGINEERING** of the **VISVESVARAYA TECHNOLOGICAL UNIVERSITY, BELAGAVI** during the year 2022–2023. It is certified that all corrections/suggestions indicated for Internal Assessment have been incorporated in the report deposited in the departmental library. The Mini project report has been approved as it satisfies the academic requirements in respect of Mini Project work prescribed for the Bachelor of Engineering Degree.

ABSTRACT

This project is aimed at developing a prison management system that is the collection of details of the prisoner and his details.

Basically prison is a correctional institution where persons are confined while on trial or for punishment. Each prison may have hundreds of criminals. With hardcopy of records it is hard to search report or record about a particular criminal in prison. The purpose of this document is to present a detailed description of the Prison Management System. The document will describe what to do, the constraints under which it must operate and how the system will react to external stimuli. This software will be a Prison Management System for Prison Department. This system will be efficient collection of records and details about the prisoners in prison.
