DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING

"Tell me about yourself"

Resource Person: Mr. Chandan Rao, Aerodynamik, Mumbai

Venue: AIML department classroom number 201

Total Number of Students Attended: 47

Date and Timings: 31/5/2023; 11:00 AM to 1:00 AM

The trainer explained students the main goal of a job interview is to get to know you. The "tell me about yourself" interview question is used by interviewers as a bridge between the small chat and the technical and behavioral inquiries; the interviewer wants to know if the candidate can speak professionally and coherently. He also explained students the interviewer hopes the applicant can respond to the question in a way that comes naturally and demonstrates their level of preparation and interest in the meeting.

The trainer invited each student to introduce themselves, and the mistakes were rectified.

Outcome: Students were made aware the reason this question is asked is because employers are really looking to see how the candidate would fit into the specific role at the company
