To

The Principal

AIET, Mijar, Moodbidri.

Sir,

Sub: Participation in Beach Cleaning activity, reg.

A beach cleaning activity has been proposed to be held on August 27, 2022, at Sasihithlu Beach, Mangalore. The NSS unit will be joining the other volunteers from various institutions under Alva's Education Foundation, Moodbidri. This event aligns with our commitment to community service and will provide valuable learning experiences for the volunteers.

This letter is submitted in favor of information and requesting your permission.

SURESH P S (NSS Program Officer)

Charles of Eugy, & Technology, Myo's Institute of Eugy, & Technology, Eugy, & 225, D.K.

8. Beach Cleaning on 27.08.2022

With an objective of promoting environmental conservation and raising awareness about the importance of keeping our beaches clean, NSS conducted a beach cleaning event at Sasihitlu Beach on 27.08.2022. A total of 27 volunteers participated in the beach cleaning event. The participants consisted of environmental enthusiasts, and members from various community organizations.

The event started at 6:15 AM with a briefing session by the managing trustee, Sri Vivek Alva, AEF-Moodbidri. The participants were given an overview of the importance of beach cleaning and the potential environmental impacts of litter. The participants were divided into smaller groups, each assigned to a specific section of the beach. They worked together to collect litter, debris, and other waste materials from the shoreline and surrounding areas. The participants were encouraged to segregate the collected waste into different categories like plastic, glass, foam, rubber etc., to facilitate proper recycling and disposal. The beach cleaning event concluded at 10:00 AM.

Outcome: The beach cleaning activity at Sasihitlu Beach yielded significant results. The participants managed to collect a substantial amount of waste, including plastic and glass bottles, food wrappers, discarded flip-flops & shoes, thermocol and other debris. Approximately 175 large bags of waste were collected and properly disposed of. Such initiatives foster a sense of community responsibility and encourage sustainable practices for a better future among the participants.
