

7.1.6 Quality audits on environment and energy regularly undertaken by the Institution and any awards received for such green campus initiatives: (5)

The institute has undertaken audits on green and environment to promote environment management and conservation in the college campus. The institute has also conducted energy audit to identify energy flows of the campus with the objective of understanding the energy efficiency. The audits has been conducted and certified by STEP private limited. The scope of the green and environment audit includes assessment of the green initiatives taken up by AIET to improve natural environment and biodiversity. The energy audit was conducted to access existing energy balance, initiatives taken up by the institution for reduction in energy consumption and to provide suggestions and recommendation for cost savings due to energy conservation. The institute also follows environment and energy usage policy to promote environment conservation and efficient energy usage.

The campus has been awarded as the best green campus on World Environment Day towards its contribution for Swachh bharath abhiyan and environment preservation awareness event jointly organized by Forest department, Govt. of Karnataka, Pollution control board, Mangaluru smart city ltd and Dakshina kannada district administration. The institute also organizes various environmental promotional activities through NSS, NCC and Srishti- The Nature club.
