A Report on Aptitude Training by 10 Seconds

Date: 25-07-2023 to 28-07-2023

Time: 9:00am-4:20pm

Venue: MBA 'A' classroom

The Aptitude Training was organized by AIET MBA department for first-year students which was held over four days from 25th July 2023 to 28th July 2023. The training was conducted by Mr. Manikumar Gangavathi and Ms. Neeraja Anand, from the 10 Seconds Institution. Each day consisted of three sessions, starting from 9:00 AM to 4:20 PM, with breaks in between.

Day 1:

On the first day, Mr. Manikumar conducted the first session on LCM and HCF, teaching us various simple methods to solve related problems. The second session was conducted by Ms. Neeraja, focusing on problems related to time, speed, and distance, and she explained the concepts interactively and simplest way possible. After lunch, Mr. Manikumar conducted the final session of the day, covering sums related to divisibility. He also taught us divisibility rules and easy tricks to solve such problems.

Day 2:

The second day started with Ms. Neeraja's session on Train crossing a moving object, which was an interesting and fun learning experience. The second session, led by Mr. Manikumar, covered topics related to Percentage, Profit, and Loss in a simplified manner. The final session of the day was conducted by Ms. Neeraja, who organized a Quiz related to direction, engaging the whole class in an interactive group activity. Overall, the second day was fun, and we learned many new mathematical loopholes.

Day 3:

The first session on the third day, conducted by Mr. Manikumar, covered Percentages and also discussed Profit and Loss, providing valuable insights and helping us understand the calculations better. Ms. Neeraja conducted the next session on Boat and Stream, explaining the tricky formulas in a simple and understandable manner. After lunch, Mr. Manikumar took the afternoon session and covered the topic of Data Sufficiency, challenging us to think critically and apply logical reasoning to solve problems effectively.

Day 4:

The final day began with Ms. Neeraja's session on Calculating Time and Speed, where she taught us various methods and shortcuts to quickly solve speed-related problems in aptitude tests. This was followed by Mr. Manikumar's session on Deductive Reasoning, where he taught us to draw quick conclusions for questions with given statements. After lunch, we had the last session of the workshop, Blood Relations, handled by Ms. Neeraja. It was a fun-filled session where we learned how to solve complicated family trees to find relationships between members.

Conclusion:

The Aptitude Training conducted by AIET MBA department with trainers Mr. Manikumar Gangavathi was a great platform to learn aptitude skills for the students. The entire aptitude workshop was a rewarding experience, thanks to the engaging and interactive teaching methods of Mr. Manikumar and Ms. Neeraja. We bid farewell to both of them with gratitude for their guidance and support throughout the four days. The workshop equipped us with valuable skills and mathematical techniques that will undoubtedly prove beneficial in our future academic and professional pursuits.

3Days Aptitude Training by 10 SECONDS

The aptitude training was conducted for second semester of MBA students from 10th September 2022, 11th September 2022 and 17th September 2022 by Mr. Ganesh Keerthi & Mr. Sanjay 10 seconds Aptitude trainer, working as a freelance Trainer currently, catering to the needs of Engineering and MBA students, 2 years of experience in aptitude training. An aptitude test is a structured assessment that aims to evaluate job candidates' or even existing employees' talent and/or skill in completing certain tasks without any prior knowledge or training to develop their quantitative aptitude, Logical reasoning, Verbal ability as Aptitude is a most important parts of competitive exams and job interviews. As the increasing number of employers are now using aptitude tests as a way to assess the specific capabilities of potential employees. They are often used as a method of screening to identify high calibre candidates. The content of an aptitude test, particularly in an industry such as innovation, needs careful thought and consideration. They are used to assess candidates in terms of their skills, knowledge, ability and personality. Aptitude tests are an accurate way of predicting the potential contribution of a candidate and the likelihood of them achieving success within the organization. It can sometimes be difficult from an interview alone to assess the candidate's skills, so an aptitude test provides the employer with a greater insight into their capabilities. As the 2nd semester students were getting ready for their placement a training was conducted so that the students could be selected without any difficulties.

Total 117 students benefited from this session.
