3Days Aptitude Training by 10 SECONDS

The aptitude training was conducted for second semester of MBA students from 10th September 2022, 11th September 2022 and 17th September 2022 by Mr. Ganesn Keerthi & Mr. Sanjay 10 seconds Aptitude trainer, working as a freelance Trainer currently, catering to the needs of Engineering and MBA students, 2 years of experience in aptitude training. An aptitude test is a structured assessment that aims to evaluate job candidates' or even existing employees' talent and/or skill in completing certain tasks without any prior knowledge or training to develop their quantitative aptitude, Logical reasoning, Verbal ability as Aptitude is a most important parts of competitive exams and job interviews. As the increasing number of employers are now using aptitude tests as a way to assess the specific capabilities of potential employees. They are often used as a method of screening to identify high calibre candidates. The content of an aptitude test, particularly in an industry such as innovation, needs careful thought and consideration. They are used to assess candidates in terms of their skills, knowledge, ability and personality. Aptitude tests are an accurate way of predicting the potential contribution of a candidate and the likelihood of them achieving success within the organization. It can sometimes be difficult from an interview alone to assess the candidate's skills, so an aptitude test provides the employer with a greater insight into their capabilities. As the 2nd semester students were getting ready for their placement a training was conducted so that the students could be selected without any difficulties.

Total 117 students benefited from this session.
