Quality vs. quantity has long been a debate topic. Students, as crucial stakeholders, are concerned about the predicted consequences. As the technical education scenario shifts from an output-based to an outcome-based one, quality in such procedures must be addressed. We must guarantee that the result parameters are mapped in relation to the objectives and that the programmes are aligned with national policies in light of the global trend. Stakeholder satisfaction, including students, professors, alumni, and employers, has always been a struggle. Because quality is a metric for success, there is always room for improvement in every system.

Alva's Institute of Engineering and Technology, Mijar, being unique from its very inception and foundation, has emerged as a benchmark of excellence and innovation for the world of education. With quality sustenance as its focus, the IQAC of the college has developed the feedback mechanism commencing with obtaining feedback from the various stakeholders through a structured rating based feedback form. The college draws feedback from students, teachers, alumnae and employers from respective department for continuous improvement in curriculum development and enrichment.

Feedback is gathered from all stakeholders in our Institute through an offline approach. Following the collection of data from stakeholders, the response sheet is prepared and analysed using present parameters. Departments take necessary action based on the report. The department sends a copy of the report, together with the action performed, to the Internal Quality Assurance Cell (IQAC) for any additional action that is necessary.

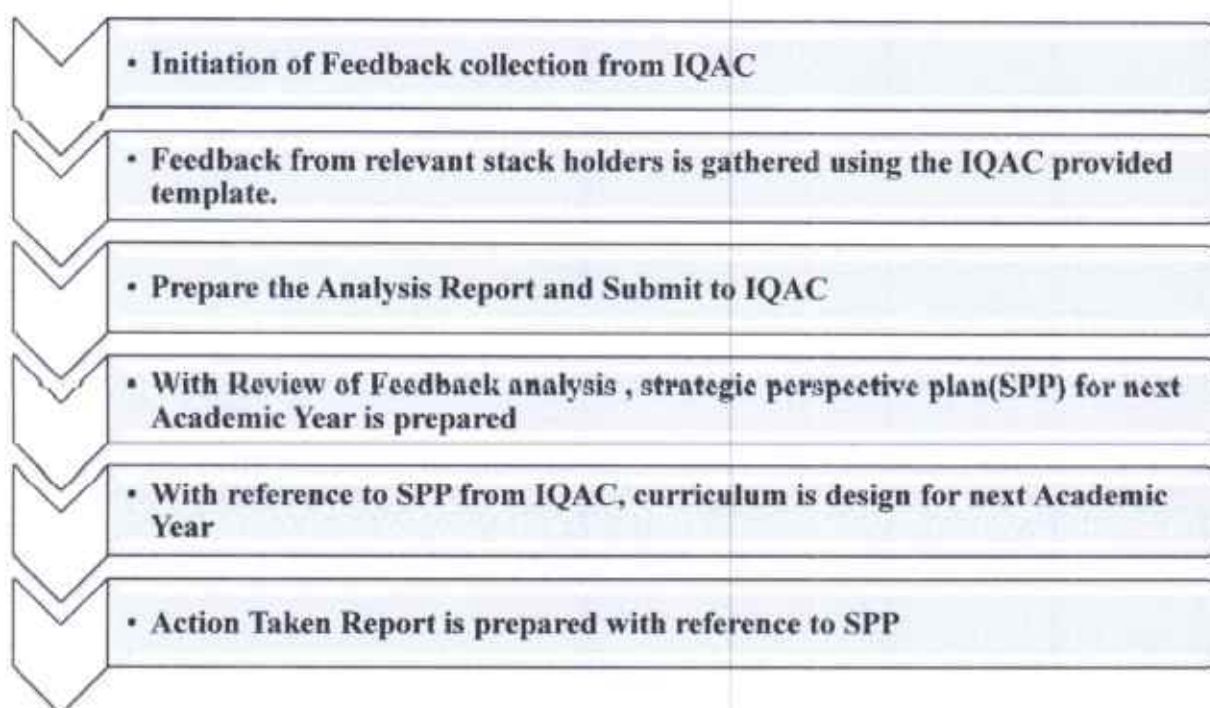

Figure 1: Feedback Analysis Process

The primary goal of this feedback is to guarantee that every student has access to competent and high-quality instruction, which leads to vigorous academic, social, and personal development. The IQAC analyses the activities as well as other quality efforts on a regular basis. We must

consistently adopt such Quality Initiatives into our processes and adhere to them in letter and spirit in order to satisfy stakeholders.

1.0 Student Feedback Form

The IQAC creates a feedback form, which is distributed to all departments for response collection w.r.t curriculum. Following is the sample feedback form of students.

1.1 Student's Feedback form on curriculum

1.2 Feedback Analysis report

An attempt was made to solicit opinions from all college students during AY 2023-24. A feedback form had been produced for this purpose, and comments from the students had been solicited. A total of 380 responses have been gathered from students on the Syllabus. Various industry oriented certification course and industry visit have implemented in department to satisfy the needs of students. Letter has been communicated to university requesting them to include Human values in the curriculum. Various sorts of graphs have been utilised to effectively portray the facts.

93.6% percent of students judged the curriculum to be very helpful in improving teamwork, developing analytical abilities, and encouraging constructive learning, while 6.4% of students anticipate curriculum improvement and speedy resolution.

Comments :

- Coding Assignments are to be given.
- Industry visit can be conducted.
- Skill development activities need to be conducted.
- Certification course on industry oriented tools need to be implemented.

2. Faculty Feedback form

The IQAC creates a faculty feedback form, which is distributed to all departments faculty members for response collection. Following is the faculty feedback form.

2.1 Feedback Analysis Report

An effort was made to receive feedback from all department faculties of the college during 2023-24. For this purpose, feedback form had been prepared and taken feedback. As many as 30 responses have been collected from the faculties on curriculum. Making students to participate in learning process various coding assignments, self study topics given seminars have been implemented. Many students have taken certification course and NPTEL courses. For the effective presentation of the data, various types of graphs have been used.

92% faculties found curriculum to be very effective in enhancing team work, developing analytical skills and constructive learning and 8% faculties are expecting improvement in curriculum and resolving it timely

Comments

- More Workshops need to conducted
- Soft Skill development activities need to be conducted according to the industry needs.
- Self-study topics and coding assignments need to be given.
- Include Mini projects at the 2nd year syllabus itself to make students to get coding knowledge.
- NPTEL certification and recent certification courses on recent technologies need to be done by the students

3. Alumna Feedback

The IQAC creates a feedback form, which is distributed to all departments for response collection.

3.1 Alumni Feedback form on curriculum

In order to improve the effectiveness of the designed syllabus and to meet the needs of the contemporary advancements in the field of engineering, the curriculum feedback from our beloved alumnus were collected and analysed.

3.2 Feedback Analysis report

Feedback from alumnus was collected from those who visited the college during AY 2023-24. For this purpose, feedback form was prepared and taken feedback. Around 68 Alumni's visited college and responses have been collected from the Alumni on syllabus. In order to arrive to comprehensive results, various activities like industry visit, certification course and social awareness programmes have been done in the department. For the effective presentation of the data, various types of graphs have been used. 91% students found curriculum to be very effective in enhancing team work, developing analytical skills and constructive learning and 9% students are expecting improvement in curriculum and resolving it timely

Comments

- The curriculum needs to include industry oriented new tools and technology
- More career Awareness Program and placement oriented training to be given to students.
- More Electives options should be provided in syllabus.
- Curriculum should ensuring professional ethics and positive attitude among the students

4. Employer Feedback

The IQAC creates a feedback form, which is distributed to various Employer who visit our institution for placement purpose and response is collected from them on curriculum. Following is the sample form of it.

4.2 Feedback Analysis Report

An effort was made to receive feedback from employers, those who visit of the college for placement, workshop technical talks...etc during AY 2023-24. For this purpose, feedback form had been prepared and taken feedback. Around 27 employer visited college and responses have been collected from them on curriculum. In order to arrive to comprehensive results, the comments of employer have been analysed and various activities have been implemented in department. Also Human values activities soft skills have been done in department. Aptitude was given to the students For the effective presentation of the data, various types of graphs have been used

87 % Employers are Satisfied with the process of Curriculum design and development. Employers opined that AIET's Curriculum is effective in developing ICT & communication skills and Curriculum has relevance to real life situations; reflects current trends and practices in the respective disciplines. 13% employers denied and suggested to improve the curriculum as per the industrial standards.

Comments:

- Miniprojects need to be introduced in the 2nd year itself.

- Curriculum has be relevance to the industrial needs
- Curriculum should ensuring professional ethics and positive attitude among the students
- The inclination of the curriculum to adopt new methods and technology
- Provide the knowledge and skills demanded by the contemporary labour market
- Introduce new programming languages in 2nd year to enhance their knowledge.
- Needs to improve their innovative thinking and human values.

Action Taken Report**Date : 21/09/2023**

The Department of computer Science & Engineering values the comments made during faculty members, students, Alumni and employers to improve the curriculum and make it more need-based research and job-oriented. We have addressed all of the suggestions made, and the measures have been taken in this regard to enhance the knowledge of students.

Action taken is listed in the table below as shown.

Key Feedback Response	Action taken
Certification courses on latest technology related to app development , python programming etc	Certification courses on <ul style="list-style-type: none"> • Apple iOS app Development • Infosys Springboard certification course • Advanced Java Programming in Code Chef
Coding assignments to be implemented in 2 nd	Coding assignments by codechef for all the 2 nd year itself.
Certification course for the 2 nd year.	Fundamentals Of iOS Programming introduced for 2 nd year students
Mini project lab for 2 nd and 3 rd year	Mini project lab for 3 rd year
Curriculum should meet industry requirements	Workshop on <ul style="list-style-type: none"> • Cyber Security and Ethical Hacking • Workshop On Flutter And Node JS • Workshop on power of generative AI in Software Development Life Cycle. • Workshop on Web Scarping • 3D Modelling and Game Development Modelling • Text Analytics And Natural Language Processing
Placement oriented soft skill activities	Skill Development Activities conducted for all the students Aptitude training is also given for the students Two weeks Training is given on C and Data Structures 3 rd year students
Industry visit can be conducted	Visit to MRF Plant Nitte and Rani Abbakka Museum, Bantwal as a part of Social Connect and Responsibility Industrial Visit on Manipal Institute of Technology's Centre of Excellence in Cybersecurity.
