Dear Sir

I am writing this letter on behalf of Alvas Education Foundation, Moodbidri, Mangalore. Established in 1995, Alva's Education Foundation (AEF) is imparting contemporary quality education to over 30,000 students through 21 institutions across various disciplines at school, graduate and postgraduate levels. These disciplines include basic sciences, Engineering, arts, commerce, management, fine arts, sports, medicine and para-medicine. It is located on the west coast of Karnataka in Moodbidri, a bustling education town just 30 kms from the Coastal city of Mangalore.

It is emphasized to all the students of Engineering from second year onwards to undergo projects – Minor / Major with real time experience. Along with this to have a 360° personality development initiative through soft skills and other personality development programs. Apart from this we also have 45 days of Internship program for our students which are mandatory for all the students to qualify for placement related activities. In tune with the industry inputs we equip our students with technological advancements on a regular basis with these additional skills:

I am writing to express our enthusiasm for the innovative research pursuits happening at our Mechanical Engineering Research Lab at AIET Moodbidri. As we continue to strive for excellence in advancing the field of mechanical engineering, we are reaching out to request financial support for our ongoing and upcoming projects.

Our lab is dedicated to pushing the boundaries of mechanical engineering through cutting-edge research in materials science, Heat Transfer, renewable energy, etc. Over the past year, we have made significant strides in publishing the technical research paper in reputed Journals. To maintain this momentum and further drive impactful research, we are seeking funding to Mechanical Engineering Research Lab.

Thank you for considering our letter and for giving us some of your precious time.

Dear Sir

Greetings of the Day!!

I am writing to acknowledge the receipt of the funds from BETA CAE Systems India Pvt. Ltd on 25-03-2024.

The amount of rupees 10,64,657.00 has been credited to our account.

We are truly grateful for your generous contribution, and we appreciate your support towards our ANSA training program. We assure you that the funds will be utilized effectively and efficiently in line with upgrading our mechanical department research Lab.

Once again, thank you for your generosity and support.

We value our partnership and look forward to continuing our collaboration in the future.
