4.3.2 Student Computer Ratio (Data for latest completed academic year)

IT infrastructure facility at Alvas Institute of Engineering and Technology (AIET) acts as catalyst for accelerating Teaching-Learning process. In this regard, the institute strategically upgrades the computer system facility provided to the students to attain optimal student-Computer ratio. Also, it helps to get hands on training for the students to meet the students with current industry updates.

The institution has total Forty Eight class rooms for the students, Three seminar halls, one auditorium and enough labs. The institution also has few additional labs for the use of students and faculty members. The institute is getting the permission to run new departments year by year. So, the number of students' admission in the institution is increasing year by year. The institution is trying to maintain the student-Computer ratio to 3:1 in every year. The institute is purchasing new computer systems for students' use in the various places of the institution like class rooms, laboratory rooms, Seminar halls, auditorium, library etc... The students count during the academic year 2023-24 is 2662 in the various departments of the institution. The count of the Computer Systems provided for the students' use is 1184.

The following table shows the Student Computer Ratio for the academic year 2023-24.

Academic Year	Number of Students	Total Number of Computer Systems	Total Number of Students' Use Computers	Student-Computer Ratio
2023-24	2662	1277	1184	3:1
