MINUTES OF MEETING

Date: 07/02/2024

Time: 11:00 AM

Venue: Board Room

Agenda Points Discussed:

1. Collection and Updating of Alumni Data

The current status of alumni data was reviewed.

It was decided that a systematic approach would be implemented to collect and verify updated contact details, professional information, and other relevant data of alumni.

Departments will assign specific faculty members to lead this initiative in coordination with the Alumni Relations team.

2. Finalizing the Alumni Meet Date

After discussions, the proposed dates for the alumni meet were reviewed.

It was unanimously decided to hold the meet on **06-04-2024**

A tentative schedule for the meet was outlined, subject to further confirmations.

3. Deciding the Outline of the Alumni Meet

The event will include an inaugural session, keynote addresses, interaction sessions, cultural performances, and networking opportunities.

Alumni achievements and contributions will be highlighted through a special recognition segment.

A task force will be formed to finalize the program flow and logistics.

4. Discussion about Alumni Involvement in Departmental Activities

Suggestions were made to actively involve alumni in guest lectures, mentoring programs, internships, and placements.

Departments were encouraged to create a framework to integrate alumni contributions into ongoing academic and extracurricular activities.

5. Discussion about Alumni Website

The need for a user-friendly and updated alumni website was emphasized.

Features to include were discussed, such as:

A portal for alumni registration and data updates.

Notifications about upcoming events and opportunities for alumni involvement.

A dedicated section for showcasing alumni achievements.

It was decided to collaborate with the IT team for the development or enhancement of the website.

The meeting concluded at 12:30PM with an agreement to review progress in the next scheduled meeting.

10:30 am-12:00 pm	Inauguration of Alumni Meet
12:00 pm-1:00 pm	Interaction with Final year Students
1:00 pm-2:00 pm	Lunch and Conclusion

The concept of an alumni meet emerged from the shared needs of both academicians and professionals, aiming to bridge the gap between college life and career life. The goal is to equip fresh graduates with the skills and confidence needed to navigate the challenges of today's competitive professional world. By working together in collaboration, both groups can support

each other in achieving this vision. This idea eventually led to the establishment and realization of the Alumni Association.

Alva's Institute of Engineering and Technology, Moodbidri, hosted its Annual Alumni Meet for the academic year 2023-24 on April 06, 2024. The event commenced with an invocation by Ms. Bhoomika, a proud alumna from the 2023 batch. Dr. Peter Fernandes, the Principal, highlighted in his address that the college offers opportunities for alumni to further their qualifications through postgraduate courses and PhD programs. He encouraged the alumni to collaborate with the institution in enriching the knowledge and skillsets of current students by conducting guest lectures and facilitating interactions with industry experts. Dr. Fernandes also expressed his gratitude to the alumni for their active involvement, which has been instrumental in the successful initiation of key accreditation processes such as NAAC, NBA, and NIRF.

All the alumni introduced themselves, sharing their current job roles and designations. A video showcasing the latest facilities and infrastructure at the AIET campus was presented, which received appreciation from the alumni for the management's efforts in enhancing the campus offerings.

An alumnus proposed the idea of a Corporate Mentoring Program, where mentors' profiles would be uploaded, and allowing students to choose their mentors. These mentors would guide and groom the students as needed through emails or scheduled meetings.

It was also suggested to form dedicated student core committees for placement, entrepreneurship, cultural activities, and academics. These committees would empower students to take leadership roles, fostering a sense of responsibility and ownership.

Additionally, a recommendation was made to structure the syllabus so that 50% is taught by subject faculty, while the remaining portion is covered through seminars, webinars, internships, and collaborative interactions with other colleges and corporate professionals.

Profile of the Guest: Mr. Shreyas P Bhat, Principal Engineer (Yield and Integration) at GlobalFoundries, Bangalore. He is a proud alumnus of batch 2015 and VLSI MTech graduate with 8 years of work experience in research and industry. He Worked as Technologist in National Nanofabrication Centre at Indian Institute of Science for 4 years, cultivated expertise in fabrication tools and process for MEMS devices, sensor, transistor fabrication on Silicon. He has Six publications in international journals and conferences during research on the topics revolving around transparent flexible strain gauges, thin films development for MEMS application etc. Mr. Shreyas has more than 3 years of semiconductor manufacturing industry experience involving wafer level electrical test and parametric data evaluation for a range of 55nm to 22nm CMOS technologies. His Present role in GlobalFoundries revolves around Electrical Test data evaluation for wafers shipment, Yield analysis of wafers, leading a team for Electrical Test Disposition of wafers. Invited speaker at Industry-Academia workshops at National Nanofabrication Centre, IISc and also delivered technical talks at Indian Nanoelectronics Users Program at Centre for Nanoscience and Engineering, IISc.

Program Details: The inaugural ceremony of "EVIONICS Activities 2023-2024" was held on 03/01/2024. Ms. Shreya, welcomed the Chief guest Mr. Shreyas P Bhat, Principal Engineer at GlobalFoundries, Bangalore, Mr. Vivek Alva, Managing Trustee, AEF, Dr. Peter Fernades, Principal, Dr. Dattathreya, Dean planning, Dr. Siddesh G K, Head of the Department, Dr. Manjunath D V, Dr. Ganesh V N, Forum Coordinator, Heads of other Departments, and Faculty members of E&CE Department. The newly elected forum President, Mr. Mnajunath Sajjan, introduced Office bearers of EVIONICS and welcomed the second-year students. Ms. Spoorthi and team, began the session by an invocation of God which was followed by the lighting of the lamp. Mr. Manjunath briefed upcoming events for 2023-24. Ms. Soumya, Secretary, briefed about chief guest profile. The Chief Guest, Mr. Shreyas shared his words of wisdom with students. He congratulated the new office bearers and explained the responsibilities to fulfill. He shared a brief thought on the corporate life and student life. He also presented how to bridge the gap between industry and academia. He suggested the students to cultivate the habits of working on new technology and to update

them with the present industry era. Addressing the forum, Dr. Siddesh G K, Head of the Department, welcomed the 2nd year students to the department. He highlighted the achievements of ECE students in his speech. Further, he italicized that the illiterates of this century are not the ones who do not know to read and write but are those who do not know to keep themselves updated on the changing trends. He motivated the students by briefing the importance of team work towards the achievement. At the outset, He urged the students to start the preparations to strengthen the resume with the active participation. Mr. Vivek Alva, Managing Trustee, motivated the students in his presidential address. He briefed about the roles of an individual in an association where it plays a very important role in giving opportunities to each and every one. He reminded the students to have an active participation in academic as well as extra-curricular activities and suggested to get individual recognitions for the lifetime. He suggested to have many more achievements in industry related competitions. He wished everyone a great successful academic year. To conclude the session, Ms. Sristi Shetty, Vice Secretary, EVIONICS, offered the vote of thanks to all & expressed his gratitude to Chief Guest, Mr. Shreyas for gracing the occasion with his solemn presence. The students from 2nd, 3rd, and 4th years of Electronics & Communication Engineering and faculty members had attended the EVIONICS inaugural event.

The alumni talk was an enriching session aimed at bridging the gap between the current students and industry practices. Esteemed alumni, who have excelled in diverse roles across various domains, shared their experiences, career journeys, and insights into the professional world.

- Praveen Vishwakarma, currently working as a Management Trainee in Supply Chain Management (SCM) at Switchgear and Control Technic Pvt. Ltd., shared valuable insights during the alumni talk. Having joined the company on 4th June 2023, he emphasized the significance of supply chain optimization and its critical role in the electronics industry. He highlighted the importance of effective communication and teamwork in ensuring seamless supply chain operations, inspiring students to develop these essential skills for a successful career in SCM.

Date of Event: 2nd October 2023

- Mokshith, currently working as a Trainee Engineer at Karmic Design Pvt. Ltd., shared his experiences and insights during the alumni talk. With his journey set to transition into the role of an Analog and Mixed Signal Layout Engineer after a year of training, he highlighted the challenges and opportunities within the VLSI domain. Joining the company on 11th Aug 2023, Mokshith inspired students to delve deeper into analog and mixed-signal design, emphasizing its critical role in modern electronics and its potential for growth and innovation.

- Nagarjuna G.S., an accomplished alumnus, shared his inspiring journey during the alumni talk. He began his professional career with an internship at Codecraft Technologies, where he honed his skills from February 2019 to October 4th of the same year. Following this, he will be joining Winman Softwares LLP on October 12th as a Software Engineer Trainee. Currently excelling in his role, Nagarjuna provided valuable insights into the industry, emphasizing the importance of continuous learning and adaptability in the ever-evolving tech landscape. His experiences served as a motivating example for aspiring engineers in the audience.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

The alumni talk provided students with valuable insights into industry trends, emphasizing the significance of internships, practical skills, and adaptability in professional growth. The alumni shared their experiences and offered actionable advice on career planning, skill development, and successfully transitioning from academia to industry. Their discussions covered various domains, including software development, supply chain management, VLSI design, and sustainable technologies, inspiring students to explore diverse career paths and prepare for future challenges.

In conclusion, the session served as an excellent platform for fostering meaningful interactions between students and alumni. It not only motivated students but also provided them with a clearer understanding of the skills and mindset required to excel in their careers. The Department of Electronics and Communication Engineering looks forward to organizing more such events to strengthen the bond between alumni and students while supporting the holistic development of future professionals.

REPORT ON CERTIFICATION COURSE ON VALUATION OF PROPERTIES

ACADEMIC YEAR 2023-24

DEPARTMENT OF CIVIL ENGINEERING

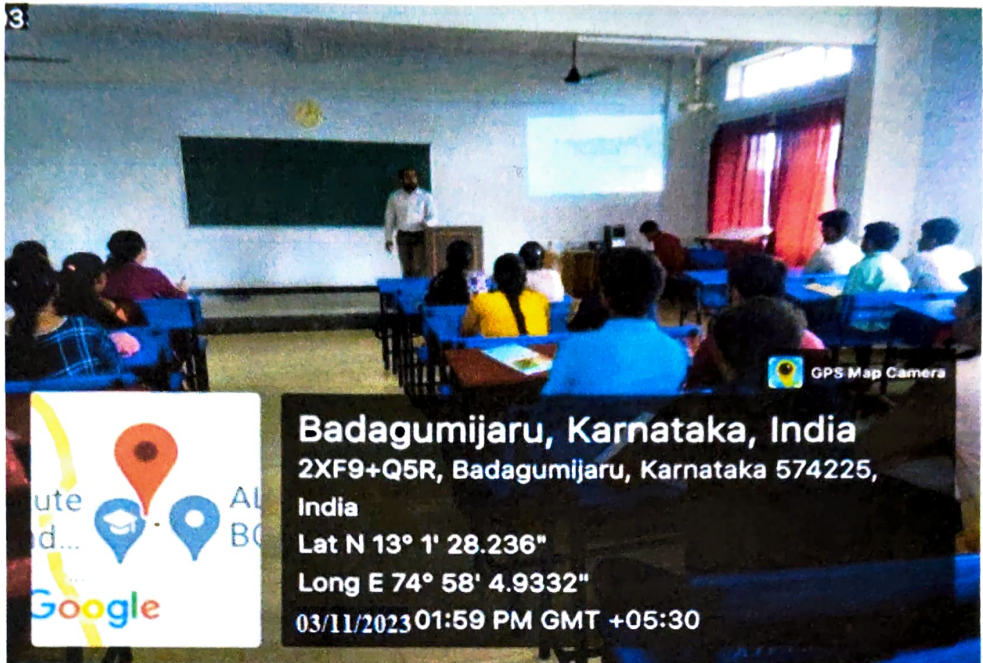

Course Objective:

Starting with the basic understanding about the term Value, the course runs through the key approaches of valuation discovering the underlying assumptions of various models, as well as best practices, and their applications in live cases. Once the operation knowledge is gained, the same would be applied to case studies.

About certification course

A certification course on Valuation of properties (Land and Building) was conducted for final year 27 students from 10/10/2023 to 13/05/2024. Quantity Surveying, Fundamentals of Valuation, Valuation of real properties and case studies are the subjects of certification course. The course is divided for two semester's 7th and 8th semester. In 7th semester, Quantity Surveying and Fundamentals of Valuation subjects are completed and in 8th semester, Valuation of real properties and case studies are completed. Students learned about various quantity measurements of land and building and methods of valuation of properties.

The quantity surveying subject was engaged by Mr. Shankargiri K S, Assistant Professor, Department of Civil Engineering, AIET and Fundamentals of Valuation, Valuation of Land and Building are engaged by Mr. Avinash Nayak, Chartered Engineer and Valuer, Udupi.

Thanks & Regards

Dr. H. Ajith Hebbar, Ph.D (Envi.), M.Sc. (Engg. by Research), B.E. (Civil Engg.), MISTE, ICI.
Professor and Head, Department of Civil Engineering.

VISION OF THE DEPARTMENT

To become a leader in the field of Civil Engineering by imparting quality education in developing highly competent manpower and promote research to meet the current and future challenges in Civil Engineering.

MISSION OF THE DEPARTMENT

- To impart knowledge by creating conducive teaching-learning environment.
- To produce civil engineers of high caliber, technical skills and ethical values, to serve the society
- To promote innovation in the minds of future engineers to face the challenges.

Alumni-Connect Event

Workshop on Innovative use of Database technologies for building applications

17th November 2023

Event Report

Event Objective:

- To bring out the creative idea of students and to gauge their knowledge and awareness of various trends in Database Technology.
- To motivate the students based on their creative aspects.
- To trigger thought process among the students towards recent trends in the field of Database Technology.
- To motivate the students to spend time in meaningful activity and to be a creator of the digital world instead.
- To unleash students' creativity and to actualize their imagination.

Alumni Resource Person:

Mr. Nikhil S Acharya

(2018-2022 Batch – B.E. ISE)

Software Engineering Analyst

Capgemini Technology Services India Limited, Bangalore

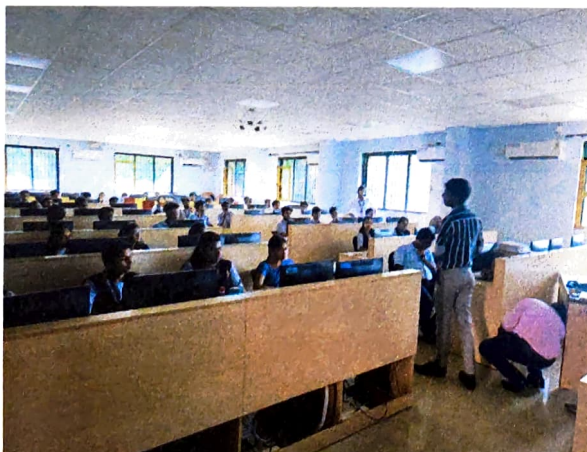

Highlights:

The Department of Information Science and Engineering has organized the Workshop on "Innovative use of Database technologies for building applications" on 17th November 2023, as part of Alumni connect. In the workshop, the resource person and our Alumni, Mr. Nikhil S Acharya has provided the hands-on session on the following topics:

- Setting up a basic PHP and MySQL development environment on Linux and Windows.
- Writing scripts using the basic functionality of the language.
- Using strings, arrays and associative arrays.
- Using regular expressions to search and modify data.
- Using the object-oriented features.
- Reading and writing to files.
- PHP scripts that query and update a MySQL database.
- Using cookies and sessions for authentication.
- Implementing security and using debugging features.

The Head and Faculty Members of Department of ISE and 56 Students of III-year B.E. were participated and benefited from the program.
