Alva's Institute of Engineering & Technology (AIET) > Celebrations > Traditional Day

Traditional Day

It's a day that everyone looks forward to in all colleges and even more so at Alva's. What started off as a normal traditional day three years ago with everyone turning in 'traditional clothes' has now evolved into something totally exciting. In the beginning, as usual, each college under the Alva's Education Foundation observed it separately. But now it encompasses all its colleges under one unifying banner. Teams consist of a mixture of students from different colleges. This makes students to interact and get to know each other. Each team represents a different region of India and unbelievably, there is also an international team.

This year's Traditional day witnessed on 30th March 2019 with Smt. B. Jayashree, Theatre giant Padmashri awardee as a Chief Guest.

About Training and Placement Department

The backbone of any institution is Academics and Placements. The placement track record of any institution is an indication of the success of the institution.

The Training and Placement Department of the institute has a Training and Placement Head who overlooks overall placement activities right from the design, training and execution of placement drive under the supervision of various heads of the department and its respective
