The Principal/IQAC Chairman
AIET, Mijar

From

Dr. Prameela Kolake
Associate Professor & HOD
Department of Mathematics
Alva's Institute of Engineering & Technology,
Moodabidri - 574225

Sir,

Subject: Requesting permission to conduct a Total Quality Management in Teaching Learning - An Orientation program on "**Outcome based Education for Faculty and Students**" reg...

With reference to the above cited subject, the Mathematics Department is planning to conduct a Total Quality Management in Teaching Learning - An Orientation program on "**Outcome based Education for Faculty and Students**" on 19th August, 2023 at **AIET Auditorium**.

Resource Person: Dr. Manjunath Kottari
Associate Professor & HOD
CSE Dept.

Timings: 11AM - 12.40AM

In this regard I request your kind permission to conduct the above-mentioned program.

Thanking You

Coordinator

REPORT

The Department of Mathematics hosted a Total Quality Management in Teaching and Learning Orientation Program for Faculty and Students on "Outcome-Based Education."

Mr. Harish Kunder, Associate Professor and HOD, Dept. of AIML, educated the faculty and students on the subject. The following is a synopsis of the talk:

OBE is an acronym that stands for OUTCOME-BASED EDUCATION, and it refers to a student-centred teaching and learning style in which course delivery and assessment are organised to meet stated objectives and results. It is concerned with evaluating student performance at various levels, i.e. outcomes. Thus, unlike traditional teaching-learning methods, the OBE paradigm focuses on mapping, assessing, and achieving predetermined educational objectives.

The educational objectives are not only intellectual in nature, but can also include features such as -

- Identifying and resolving issues
- The ability to simplify complicated learning approaches
- Individual or group effort
- Dependability
- Ethical considerations
- Communication skills.
- On going education

Outcome-Based Education Aspects

1. A course is defined as a hands-on, theory-based learning experience.
2. Course outcomes are statements that summarise significant and critical learning that students have acquired and can reliably demonstrate at the end of a course.
3. A degree's concentration or discipline is referred to as a programme. It is a network of interconnected courses, co-curricular activities, and extracurricular activities that culminates in the awarding of a degree.
4. Program outcomes are more specific statements defining what students should be able to do by the end of the programme. Graduate Attributes are designed to be closely related to POs.
5. Program Educational Objectives are statements that characterise the expected achievements of graduates in their careers, particularly in the first few years following graduation.
6. Programme Specific Outcomes describe what students should be able to do in relation to a specific discipline by the time they graduate. A typical programme has two to four PSOs.
