REPORT

The guest talk on 'Human Resource Development' to all the first year students of Alva's Institute of Engineering and Technology was held on 22/09/2023 at 2.00 pm at MBA Seminar Hall. Speaker said, it takes a lot of effort, externally and internally, to establish good aspects of life. With Our friends, we can make a difference in life, and might take the path of decline. So for our prosperity, we can make life happier if we follow the principles of Sabka Sunana, Dilka Karna.

In the talk, the students were informed about test-fears, social-anxiety, depression, compatibility problem, the challenges faced by colleges, the psychological pressures of the students at the college level, the need for the subject, ways to manage it and the solutions to the challenge. Addiction to drugs is like being trapped in a maze. Once you get into that lore, it's impossible to come back again. Therefore, young people should know that they can live a comfortable and beautiful life without falling victim to any evil.
