Accredited by NAAC with A+ Grade & NBA (ECE & CSE)

Professional ethics are fundamental to engineering education, shaping the integrity and responsibility of future engineers. The All India Council for Technical Education (AICTE) has consistently emphasized the importance of integrating ethical values into technical curricula. Further he emphasized Professional ethics are the cornerstone of engineering education and practice. Engineering faculties play a pivotal role in shaping ethical engineers who prioritize societal welfare, sustainability, and integrity. By fostering an environment that values ethics, faculties can ensure the development of professionals equipped to face the challenges of a rapidly evolving world responsibly.
