Cordially Invites for

“World Environmental Day – Plant in Pot”

Chief Guest

Dr. Peter Fernandes,
Professor & Principal,
AIET, Mijar.

2.30 P.M.

Wednesday, 5 - June 2024

Venue: Campus, AIET, Mijar.

Date: 05-06-2024

Topic: ***"World Environmental Day – Plant in Pot"***.

Date: ***05-06-2024, Time: 2.30 p.m. to 5.00 p.m.***

Venue: AIET Campus.

Plant in Pot Program.

Alva's Institute of Engineering and Technology celebrated ***"World Environmental Day"*** on 05/06/2024 at 2.30 p.m. at the AIET Campus.

On World Environmental Day, students from all branches of Alva's Institute of Engineering and Technology (AIET) actively participated in an environmental initiative called **"Plant in Pot"**. The activity aimed to promote environmental consciousness among the students while contributing to a healthier ecosystem. As part of the event, each student planted their favourite plant in a pot, and collectively, around 50 different varieties of plants were nurtured during the activity.

The initiative served as a hands-on learning experience and fostered a sense of responsibility and ownership towards nature. The students pledged to care for

their plants throughout their time on campus, demonstrating their commitment to sustainability. By engaging in such eco-friendly activities, the students hope to contribute to increasing oxygen levels in the atmosphere and, in turn, reducing air pollution. The "Plant in Pot" activity is a small but meaningful step towards creating a greener and cleaner environment.

The event was graced by the presence of Dr. Peter Fernandes, Principal of AIET, Dr. Satynarayan, Head of the Mechanical Engineering Department, Dr. Shashikumar, Head of the Agricultural Engineering Department, and Prof. Durgaprasad Baliga, Dean of Student Affairs. Faculty members from various departments, along with a large number of students, participated enthusiastically in the event.

This activity stands as a reminder of the importance of individual and collective efforts in combating pollution and fostering a greener future. The AIET community's commitment to environmental conservation sets an example for other institutions to follow, contributing to the global fight against climate change and pollution.

Event Photos.

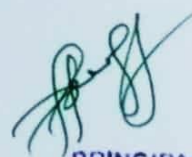

The outcome of the event:

- Students planted the plants in pots individually.
- Around 50 different varieties of plants are planted in pots.
- This kind of activity increases the oxygen level of the atmosphere and reduces the atmosphere pollution.
