Madhushree .

has successfully completed the online, non-credit Professional Certificate

Google Cybersecurity

Those who earn the Google Cybersecurity Certificate have completed eight courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for entry-level roles in cybersecurity. They are competent in beginner-level Python, Linux, SQL, Security Information and Event Management (SIEM) tools, and Intrusion Detection Systems (IDS). They know how to identify common cybersecurity risks, threats, and vulnerabilities, as well as the techniques to mitigate

Foundations of Cybersecurity
Play It Safe: Manage Security Risks
Connect and Protect: Networks and Network Security
Tools of the Trade: Linux and SQL
Assets, Threats, and Vulnerabilities
Sound the Alarm: Detection and Response
Automate Cybersecurity Tasks with Python
Put It to Work: Prepare for Cybersecurity Jobs
