From,

Mr. Jayanthkumar A Rathod
Head of the Department
Computer Science and Design
Alva's Institute of Engineering and Technology Moodbidri.

To,

The Principal
Alva's Institute of Engineering & Technology
Moodbidri

Respected Sir,

Subject: Request to Conduct – An Orientation program on “**Outcome based Education for Students**” under Total Quality Management in Teaching and Learning on 15th May 2024

We are planning to conduct An Orientation program on “**Outcome based Education for Students**” under the **Total Quality Management in Teaching and Learning initiative on 15th May 2024**. This orientation program is designed exclusively for internal faculty members and department students.

We kindly request your permission to organize this orientation program as part of our commitment to enhancing the quality of teaching and learning within the institution. Faculty and students are actively involved in planning and preparing for this event to ensure its success.

Thanking you

Your's faithfully

Mr. Jayanthkumar A Rathod
Head of the Department

Report on an Orientation program on "Outcome based Education for Students" Under Total Quality Management in Teaching and Learning

VENUE: CSD lab

Date: 15/05/2024

Resource Person: Dr. Shivaprasad B J, Sr. Asst. Professor, CSD, AIET

Key points of the talk are as briefed below

1. OBE stands for OUTCOME-BASED EDUCATION, and it refers to a student-centered teaching and learning system in which course delivery and assessment are organized to meet stated objectives and results.
2. It is concerned with evaluating student performance at various levels, i.e. outcomes. Thus, unlike traditional teaching-learning methods, the OBE paradigm focuses on mapping, assessing, and achieving predetermined educational objectives.
3. The educational objectives are not only intellectual in nature, but can also include features such as -
 - Identifying and resolving issues
 - The ability to simplify complicated learning approaches
 - Individual or group effort Dependability
 - Ethical considerations
 - Communication skills.
 - Ongoing education

Outcome-Based Education Aspects

1. A course may be defined as a hands-on, theory-based learning experience.
2. Course outcomes are statements that summarize significant and critical learning that students have to acquire and can reliably demonstrate at the end of a course.
3. A degree's concentration or discipline is referred to as a programme. It is a network of interconnected courses, co-curricular activities, and extracurricular activities that culminates in the awarding of a degree.

4. Program outcomes are more specific statements defining what students should be able to do by the end of the programme. Graduate Attributes are designed to be closely related to POs.
5. Program Educational Objectives are statements that characterize the expected achievements of graduates in their careers, particularly in the first few years following graduation.
