WORKSHOP ON

“WRITING PROJECT PROPOSALS”

OCTOBER 24th, 2022

Trainers	1)Mr. Nagesh U B
Faculty In charge	1)Prof. Jayantkumar Rathod -Project Coordinator

Number of Student attended the Training 7th Semester ISE	15
--	-----------

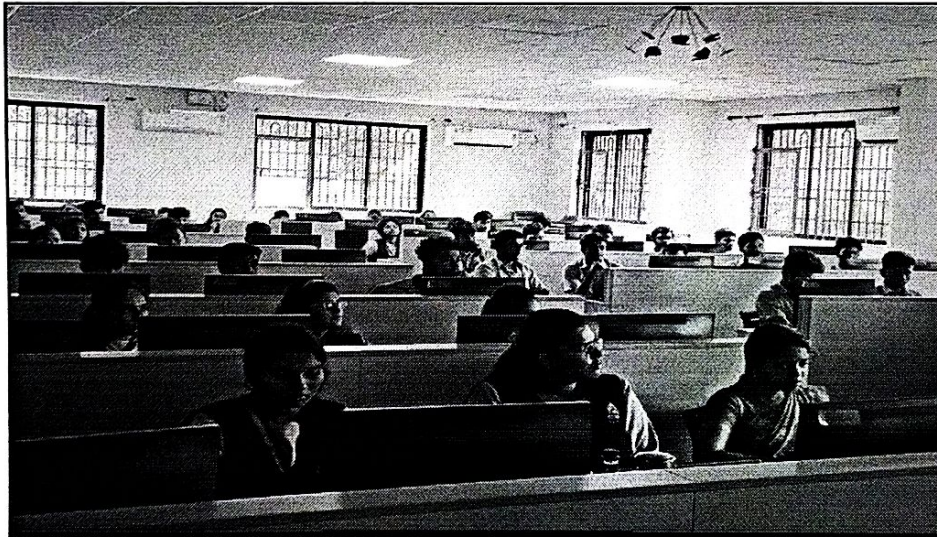

Department of Information Science And Engineering Of Alva's Institute of Engineering & Technology, conducted one day Workshop on "WRITING PROJECT PRAPOSALS" on Oct 24th, 2022 for the 7th semester students of ISE branch from 9.00 am to 4:30 pm in ISE Lab. The aim of this workshop to give a brief ideas about how to get project funding by funding agencies, finding suitable problem statement and conducting a feasibility study.

The session was inaugurated by Head of the Department, Prof. Sudheer Shetty, in his Inauguration speech, he quoted that finding a suitable problem statement and preparing a project proposal plays a key point to get any grants from granting agencies. Therefore this type of programs plays very important for students.

The trainer started his session with how to find a problem statement, once you got problem statement then have to search that does it already executed, if yes then find what the drawbacks of it are and how to modify and optimise the solutions. Literature survey also plays key role in selecting the problem statement.

Your project proposal is the primary source of information used by your organization and/or the donor agency to decide whether to give funding. Your project proposal will also serve as your guide for project implementation.

A project proposal is a document which describes in detail existing problems and needs, your plan for addressing these needs, the schedule of activities to be undertaken and the resources that are required. Writing the proposal requires you to define your ideas about a project and to set forth concrete objectives, detailed work plans and budgets. Many funding agencies have preferred formats for project proposals. Others are less concerned about form as long as the proposal includes complete information. Be sure that you know what is required by the funding agencies you will approach before writing a proposal. Also he discussed about project proposal formats.

In hands on session, trainer formed teams of two-students and assigned a task of finding a simple problem statement, writing project proposal and same will be presented by the team. This activity helped students to understand what type of questions they face in presentation. Also learn leadership quality to work as team leader.
