2. The scheme and solutions should be legibly hand written in black ink, so that it could be xeroxed and distributed.
3. A scheme & solution does not mean the splitting of final marks into its component parts (example 2+2+4+2). 4. A scheme and solution which merely shows the component marks are liable to be rejected.
5. The extent of solutions should not exceed the enclosed four pages / sheets and should only indicate the expected important points / steps / graphs / drawings / circuits / figures / calculations / tables and final numerical answers, along with the marks allocation for each of these.
6. Please bear in mind that the students have to complete the answers within 3 hrs / 4 hrs and answer five full questions.
7. The allocation of marks shall be an indicator, for the students, for the extent of answers expected.
8. Marks could be allocated for step-wise development of concepts / answers / figures / circuits / graph / flow diagrams / block diagrams, giving due importance or weightage for factors like neatness / exactness / accuracy in numerical values / units / calculations.
9. The figures / drawings and views / circuit diagrams that are part of answers shall also be given in the solution to ensure that the same is being uniformly evaluated by all the examiners.
