The Department carries out various Industry-Institute interaction events for the benefit of the students. The Department conducts various Seminars and Technical talks in collaboration with various Companies also. Faculty members are of many Professional societies like IEEE, ISTE, etc. With an objective of developing core competence in the respective subject specializations and for learning newer technologies, the Department has formed the various Technical divisions.

ABOUT Web Development WORKSHOP

A web developer is a programmer who specializes in, or is specifically engaged in, the development of World Wide Web applications using a client-server model. A web content management system is often used to develop and maintain web applications. Web developers are found working in various types of organizations, including large corporations and govt. small and medium-sized companies, or alone as freelancers. Some web developers work for one organization as a permanent full-time employee, while others may work as independent consultants, or as contractors for an agency or at home personal use.

Continuing with the effort of training the members, a Student Training Program is organized on "Web Application Development" at AIET Moodbidri by the Department of Computer Science and Engineering.

As per the current trend, due to constant change and development in digitization, our lives are improving in all areas. To deliver a quality product, we need to have Software designing skills in the Software Development Process.
