Date: 3/9/2020

Place: AIET, Moodbidri.

### APPROVAL LETTER

To,

The Principal,  
AIET, Moodbidri

Respected Sir,

**Sub: - Approval for Online Students Certification/Training Program via Oracle Academy"-Reg.**

With reference to the subject cited above, I would like to bring to your kind notice that, the Department is planning for Online Students Training Program/certification course on "Database Foundations and Artificial Intelligence and Machine Learning" through the Oracle Platform".

Kindly consider the above request and approve the same for further proceedings.

Thanking you Sir.

### DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Dated 16/09/2020

#### CIRCULAR

It is hereby informed to all 3<sup>rd</sup> year and final year the students that Oracle academy is offering various certification courses, hence all the 3<sup>rd</sup> years students are suggested to choose Database foundations course and final years are suggested to choose Artificial Intelligence and Machine Learning course which is of 30 hours and complete it before the deadline.

A handwritten signature in blue ink, appearing to be "Jey", is written over the printed name "H.O.D.".

## ALVA'S INSTITUTE OF ENGINEERING AND TECHNOLOGY

**ALVA'S** Alva's Institute of Engineering and Technology, Mijar, Moodbidri is a premier Engineering Institute of Alva's Education Foundation, established in the year 2008, located adjacent to Mangalore-Sholapur National Highway, which is 24 Kms from Mangalore International Airport. The college is recognized by All India Council for Technical Education (AICTE), New Delhi & Affiliated to Visvesvaraya Technological University, Belagavi. The college is ranked as one of the best Technical Institute in South Canara region. The institute offers under graduate programs in 5 branches of Engineering – Computer Science & Engineering, Civil Engineering, Electronics & Communications Engineering, Information Science & Engineering, Mechanical Engineering, Computer Science & Engineering, VLSI Design & Embedded Systems. Seven departments in the institute has been recognized as research centers by Visvesvaraya Technological University, Belagavi.

### Department of Computer Science and Engineering

Department of Computer Science and Engineering started functioning from the year 2008, with an intake of 60 and has enhanced to 120 from academic year 2012-13. The Post Graduate course, M.Tech in Computer Science and Engineering, was introduced from the academic year 2012-13 with an intake of 18 students. Department is recognized as a research centre from VTU. Faculty members are actively involved in co-curricular and extracurricular activities with association and professional bodies like CSI/ISTE. Department of Computer Science & Engineering has always been on a high growth and path since its establishment. To keep pace with latest technologies, department has employed experienced and dedicated faculty with strong commitment towards research work. The department is dedicated to education, research and overall excellence. For skill development Department have highly equipped add-on labs like Envision lab, Innovation Lab and iOS Lab.

The students are well placed in reputed industries as well as continuing higher education in the premier institutes. The Department of CSE organizes various events such as workshops, Seminars, Technical talks, delivered by eminent resource persons from academia & industry, who have excelled in their field.

The department regularly conducts special courses on advanced topics. Department of CSE encourages the faculty and students for participating in research activities for enhancing their subject knowledge and acquire information regarding current trends.

### VISION OF THE DEPARTMENT

"Empowering competent, excellent professionals by transforming the knowledge and computing skills to individuals through modern innovative tools and techniques"

### MISSION OF THE DEPARTMENT

- To produce skilled, creative software developers through rigorous training.
- To conduct specific technical courses to keep abreast to the latest technological developments and transformations in the domain.
- To implement the ideas of research and innovations in interdisciplinary domains.
- To establish Industry-Institute Interaction programs to enhance the skills of employability and entrepreneurship.

### PROGRAM SPECIFIC OUTCOMES

A graduate of the Computer Science and Engineering Program will exhibit:

- PSO1: Professional Skills:** The ability to understand & implement the computer programs in the areas of Computer Architecture, System Software, Database Management Systems, Web Design, Multimedia and Computer Networking.
- PSO2: Problem-Solving Skills:** The ability to solve real-world problems by suitable mathematical model with strong technological concepts in rapidly growing arena of computer technology.

**PSO3: Successful Career and Entrepreneurship:** Knowledge in diverse areas of Software Engineering and Management & Entrepreneurship for IT Industry, conducive in cultivating skills for successful career development.

### PROGRAM EDUCATIONAL OBJECTIVES

The graduates of Computer Science & Engineering will able to

**PEO1:** Exhibit the knowledge and skill sets to adapt to the dynamic technological transformations and developments in the field of Computer Science & Engineering.

**PEO2:** Get adapted to a corporate working environment discharging entrusted duties competently and be able to stay updated on the emerging technological changes to initiate a start-ups.

**PEO3:** Get engaged in an innovative career to exploit new ideas for gaining social and economic values or to pursue higher studies in the field of research.

### ABOUT ONLINE CERTIFICATION COURSE

Education is increasingly moving towards e-education to ensure that students continue to learn by embracing a distance learning environment.

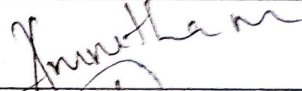

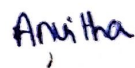

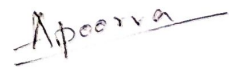

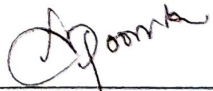

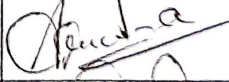

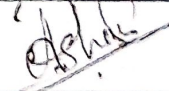

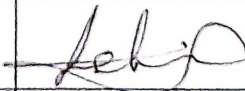

The use of digital technologies provides innovative and qualitative opportunities through the execution of the principles of mobility, virtualization, adaptability, flexibility and instant response. Moreover, it also facilitates social, emotional, and cognitive development. The foremost benefit of online certification is that a student gets to study at their own pace. Having a self-paced learning schedule can be a big help to students who need more time to learn. Moreover, students get to set up their learning environment in the comfort of their home. The added comfort puts students in a hassle-free space to seek knowledge, helping them to learn and understand the subject better.

Cost-effective and time saving, Better career opportunities in the job market, The growing relevance of online learning, Interactive Learning environment and networking opportunity etc.

## **Report on Online Certification Course**

The most important thing for an certification course is for it to be engaging and to deliver a clear outcome. An online certification course is an academic course (usually a non-degree certificate programs) that can be earned primarily or entirely on a distance learning basis through the use of an Internet-connected computer, rather than attending college in a traditional campus setting. Online courses are revolutionizing formal education, and have opened a new genre of outreach on cultural and scientific topics. These courses deliver a series of lessons to a web browser or mobile device, to be conveniently accessed anytime, anyplace. An "online course is designed as a built environment for learning.

Dept. has decided to make the students learns through various online platform about the various topics that are relevant their curriculum. Hence Dept. had given list of platform through which students can do the online certification course. All the final year students were suggested to do Course on Artificial intelligence and Machine Learning via Oracle platform for around 30 hours and all pre final years were advised to complete the Database foundation course through Oracle platform which was a course for around 30 hours duration. Dept. monitored their daily performance by collecting the information about what they learnt on everyday basis. And also students were suggested to prepare a brief report on what they learnt on everyday basis. An certification course is a way to learn a new skill or gain some new knowledge from the comfort of your own home. They can either be paid or offered for free. Some are offered by educational institutions, while others are produced by experts in their field.

Below are the sample of certificate that was issued by Oracle academy for completion of the course.

## Department of Computer Science & Engineering

### Summary Report of Add-on / Certificate program with its Outcomes

<b>Academic Year :</b> 2020-2021	<b>Duration:</b> Full year (July 2020 to June 2021)
<b>Title of the Course:</b> Online Certification (Coursera, GreatLearning, Oracle etc)	
<b>Resource Person:</b> -	

Dept. had decided to make the students learn through various online platform about the various topics that are relevant to their curriculum due to Covid-19. Hence Dept. had given list of platform through which students can do the online certification course. All the final year students were suggested to do Course on Artificial intelligence and Machine Learning via Oracle platform for around 30 hours and all pre final years were advised to complete the Database foundation course through Oracle platform which was a course for around 30 hours duration.

Totally around 200 students of CSE department completed the Online certification course through various platforms, from this course students were able to

- Identify the basic concepts and various data model used in database design ER modelling concepts and architecture use and design queries using SQL
- Apply relational database theory and be able to describe relational algebra expression, tuple and domain relation expression from queries.
- Understand the basic theory underlying machine learning.
- Formulate machine learning problems corresponding to different applications.
