Moodbidri.

To,

The Principal  
Alva's Institute of Engineering and Technology  
Moodbidri.

Respected Sir,

**Sub: Requisition for Conducting Certification Course for 10 days**

reg:-

With reference to the above subject, we are planning to conduct a certification course for 2<sup>nd</sup> and 3<sup>rd</sup> year students on the topic "**Software Testing**" by **UniQval Software Solutions Pvt. Ltd. Bangalore**. From February 27<sup>th</sup> 2017 to April 1<sup>st</sup> 2017 for 10 days.

So I kindly request you to grant the permission for conducting the certification course.

Thanking you

Your's faithfully

**Dr. D V Manjunatha**

Dear Sir,  
Thank you for the call and I had a discussion with Mr.Vivek Sir also.  
I got very very valuable inputs from Vivek Sir.  
Now that I have a clear picture of your requirement, I am forwarding the same proposal that I sent during January, to SJBIT Bangalore based on their request thinking that it will suit to your requirement. This program is structured for those in final year for SJBIT, Bangalore.  
I agree that the tiny workshops we conduct are not enough for making the students hands-on. It is meant only to know how and what the industry looks for.  
Those students who interested in that area can further take a deep course in that area and get a job. This avoids spending heavy money( more than Rs.15000/-) by students or their parents, joining a course for without knowing or without having a proper knowledge on it.  
Also workshop helps students to make a proper choice for their career spending a tiny amount.

As, now a days we in the industry struggle to get the quality even from 1/2 yr experienced staff, it becomes really difficult to train students during their college days and make them hands-on. It needs a continuous stretch of work for 2-3 months and Students already a lot of work assignments and other formalities during their colleges days.  
Keeping all this in mind and a Good Job for them, we have designed a package as in the presentation attached.

Also I have the same requirement from Jain University, where they are asking for a Certification Course in Software Development to start from 4th semester till 7th semester that 50-60 hours of course in each semester.  
In this case I would still like to say that it is not enough to the industry what we teach / train

during course but what is more important is how much the students are hands-on and how much they can perform.

As industry is pure a business/commercial environment, makes it a competitive environment and a best/better performer is selected and not that those who all have scored above a level get a job.

Kindly revert for any queries.

I will sending the coverage for the workshop by evening today.

Also we can re-plan our workshop based on your inputs and after your review on my presentation.

I have made choice of Selenium as there is a lot of requirements in the market in that area in the present situation and it shortly becomes mandatory henceforth for any Software Test Engineer.

Rgds,  
Anantha

**CC:**hcsanthkumar@shbit.edi.in, deepakbl@sjbit.edi.in, Deepak B L <bl.deepak@yahoo.com>, shanthkumarhc@gmail.com

Dear Principal Sir,

New Year Greetings to you from UniQval Software Solutions.

I am Anantha Somayaji heading UniQval Software Solutions Pvt Ltd.

I met you during last week of November 2016, along with Prof. ShantKumar Sir and Prof. Deepak Sir with regard to conduct a Skill Development program for Engineering Students.

I am extremely sorry that I could not communicate earlier to this as I was out of country on a project.

We have come out with an excellent way of Skill Development and to address 'Getting The Job'.

The Skill Development proposed is on Selenium - A Test Automation Tool which is now having considerably a good requirement (demand) in the software industry.

Our strong feeling is - if any fresher is having a hands-on experience of 200+ hours on Selenium, then, he/she is the right choice for the industry and gets a job soon.

We have framed a Unique Program , that brings credit to the

organization, benefits the students, the software industry and us.  
The same is attached as a presentation for your perusal.

I request you to go through the presentation and provide us an opportunity to meet you and implement the same at your esteemed organization.

Expecting your kind suggestions and an early reply.

Regards,  
Anantha

HOD

### **About the Institution**

Alva's Institute of Engineering & Technology (AIET) is a premier Engineering Institute of Alva's Education Foundation established in the year 2008.

AIET is recognized by All India Council for Technical Education (AICTE), New Delhi and affiliated to Visvesvaraya Technological University (VTU), Belgaum, approved by Govt. of Karnataka. Ranked as one of the best Technical Institute in Dakshina Kannada region.

### **About the Department**

Department of Electronics & Communication was started in the year 2008-09. ECE branch is concerned with the design, development, manufacture and application of electronic devices, circuits and systems. It plays great emphasis on deep understanding of fundamental principles and state of the art knowledge about Electronic Devices and Circuits, Computer Architecture and Microprocessors, VLSI and Embedded systems, Electromagnetic Field Theory, Analog and Digital Communication, Digital Signal Processing, Microwave and Broadband Communications.

### **Scope of the Course**

Every software company needs Quality Testers without which no software can

be released. This software testing training course will take you through the process of software testing which includes planning, scheduling, test scenarios, error analysis and so on. It includes various types of testing like performance testing, regression testing, text execution, preventive measures, generating test reports and test metrics.

Software Testing training will help student master software testing concepts like test cases development, error guessing techniques and Black-Box techniques and make one understand the complete testing process.

### **Course Content**

1. Importance of Software Testing.
2. Development of Test Plan.
3. Test Scenarios
4. Test case Development.
5. Logging Defects.
6. Defect life cycle.
7. Generate test reports.
8. Abhyaspod.
9. Usage of software testing tools.
10. Android screen development..
9. Selenium Automation.
9. Apache Tomcat.

### **PROGRAM SCHEDULE**

#### **27, 28 Feb 2017**

Introduction:	09:00 am to 10:00 am
Session1:	10:00 am to 11:30 am
Session2:	11:45 am to 01:00 pm
Lunch Break:	01:00 pm to 02:00 pm
Session3:	02:00 pm to 05:00 pm

#### **1,2,3, March**

Session4:	09.30 am to 11:00 am
Tea Break:	11.00 am to 11.20 am
Session5:	11:30 am to 01:00 pm
Lunch Break:	01:00 pm to 02:00 pm
Session6:	02:00 pm to 05:00 pm

#### **18, 19, March**

Session7:	09.30 am to 11:00 am
Tea Break:	11.00 am to 11.20 am
Session8:	11:30 am to 01:00 pm
Lunch Break:	01:00 pm to 02:00 pm
Session9	02:00 pm to 05:00 pm

#### **31 March to 1 April**

Session 10 :	09.30 am to 11:00 am
Tea Break:	11.00 am to 11.20 am
Session11:	11:30 am to 01:00 pm
Lunch Break:	01:00 pm to 02:00 pm
Session12 :	02:00 pm to 04:00 pm
Valedictory:	04:00 pm to 05:00 pm

# Certificate of Training

This is to Certify that Mr. \_\_\_\_\_ has undergone an Industry Certification Course on Software Testing from 27-02-2017 to 01-04-2017 held by UniQval Software Solutions Pvt. Ltd., for 10 days at the premises of AIET, Moodbidri.

The workshop has covered the concepts, Importance of Software Testing, Development of Test Plan, Creating Test Plan, Test Scenarios, Test Case Development, Test Case Execution, Logging Defects, Defect Life Cycle, Generate Test Reports, Abhyaspod, Android screen developments, Selenium Automation, Apache Tomcat.

## DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

### Software Testing Certification Course Report

Department of Electronics and Communication Engineering organized **"Certificate course on Software Testing"** for IV<sup>th</sup> and VI<sup>th</sup> semester ECE students from 27<sup>th</sup> February to 1<sup>st</sup> April, by **Uniqval Software solution**, Bangalore.

Fig: Software Testing Certification course conduction

Course covered following topics such as concepts and Importance of Software testing. Creating test plan, test scenarios, test case development, test case execution, logging defects, defect life cycles, generate test reports. Importance of Technology and domains, Usage of Software testing tools, Testlink for test management, Mantis for Defect Tracking, Installation/Deployment and hosting of web applications, real time testing, Testing of product: Ahyaspod - HTML, Android screen development, website development, database concepts( using both GUI tool and through commands). How to develop web application using PHP, MYSQL and HTML.

**Department of Electronics & Communication Engineering**

**Summary Report of Add-on/Certificate program with its Outcomes**

<b>Academic Year :</b> 2016-17	<b>Duration:</b> 27-02-2017 to 1-04-2017
<b>Title of the Course:</b> Software Testing	
<b>Resource Person:</b> Mr. Anantha Somayaji, Managing Director, UniQval Software Solutions, Bangalore	

The department conducted Certification Course on “Software Testing” for 6<sup>th</sup> semester students of Electronics and Communication Engineering from February 27<sup>th</sup> 2017 to 1<sup>st</sup> April 2017 from UniQval Software solutions, Bangalore.

113 students of 2<sup>nd</sup> and 3<sup>rd</sup> year, Electronics and Communication Engineering are benefitted from this course and were able to

- Understand the Concepts & Importance of Software Testing.
- Create Test Plan, Test Scenarios, Test Case Development, Test Case Execution, Logging Defects, and Defect Life Cycle.
- Acquire the knowledge on Real Time Testing of Product: Abhyaspod - HTML, Android screen developments, website development, Database concepts (using both GUI tool and through commands).
- Develop Web Application using PHP, MySQL and HTML Selenium Automation.

**SOFTWARE TESTING-TEST**

- 1) Bug status is set to postpone due to \_\_\_\_\_.  
a. Priority of that bug may low. b. Lack of time for the release. c. The bug may not be the major effect in the software. d. Data may be unavailable.
- 2) Testing beyond normal operational capacity is \_\_\_\_\_.  
a. Load testing b. Performance testing c. Stress testing d. All of these.
- 3) Verification and Validation uses \_\_\_\_\_.  
a. Internal and External resources respectively b. Internal resources only. c. External resources only d. External and Internal resources respectively.
- 4) Requirement Engineering is not concern with \_\_\_\_\_.  
a. Requirement Design b. Requirement Elicitation c. Requirement Analysis d. Requirement Documentation
- 5) Which testing is performed with Planning and Documentation?  
a. Ad-hoc testing b. Monkey testing c. Fuzz testing d. End-to-End testing
- 6) Which Testing is performed first?  
a. Black box testing b. White box testing c. Dynamic testing d. Static testing
- 7) The expected results of the software is \_\_\_\_\_.  
a. Only important in system testing b. Only used in component testing c. Most useful when specified in advance d. derived from the code.
- 8) Which is not true regarding Smoke and Sanity Testing?  
a. Sanity Testing is also called tester acceptance testing. b. Smoke testing performed on a particular build is also known as a build verification test. c. Smoke and sanity tests can be executed using an automation tool. d. When executing both, then first execute sanity testing tests and then smoke Testing
- 9) Which of the following is / are not use for the Usability Improvement of the website?  
a. Card sorting b. Focus Groups c. Heuristic Evaluation d. None of these
- 10) Which is not true?  
a. Condition coverage is also known as Predicate Coverage b. 100% condition coverage does not gurantee 100% decision coverage c. Error guessing as rules for testing d. Predicate coverage uses Boolean values.

**11) Test cases are created in which phase?**

- a. Test Specification b. Test Planning c. Test Requirement d. Test Configuration**

**12) A tester is executing a test to evaluate and it complies with the user requirement for a certain field be populated by using a dropdown box containing a list of values, at that time tester is performing \_\_\_\_\_.**

- a. White-box Testing b. Black-box Testing c. Load Testing d. Regression Testing**

**13) Which testing enables the tester to evaluate the software behavior when exceptions occur?**

- a. Fault Injection Testing b. Fuzz Testing c. Active Testing d. Passive Testing**

**14) Which testing focuses on heavily testing of one particular module?**

- a. Gorilla Testing b. Fuzz Testing c. Inter-Systems Testing d. Breadth Testing**

**15) When an expected result is not specified in test case template then \_\_\_\_\_.**

- a. We cannot run the test. b. It may be difficult to repeat the test. c. It may be difficult to determine if the test has passed or failed. d. We cannot automate the user inputs.**

**16) 7n test cases are generated in which case of Boundary Value Analysis?**

- a. Worst case b. Roust worst case c. Critical fault assumption d. None of these**

**17) Which is not true in context of Decision Tree?**

- a. Used in white box model. b. Perform well with large data c. Handles both categorical and numerical data d. Random forest tree is used for regression type problem**

**18) A test technique that involves testing with various ranges of valid and invalid inputs of a particular module or component functionality extensively is**

- a. Gorilla Testing b. Monkey Testing c. Agile Testing d. Baseline Testing**

**19) End result of Software Requirement Analysis is \_\_\_\_\_**

- a. Functional and Behavioral b. Architectural and Structure c. Usability and Reliability d. Algorithmic and Data Structure**

**20) Which testing cannot be performed on first build of the software?**

- a. regression testing b. Retesting c. Sanity testing d. Only A and B e. All of these**

## FEEDBACK FORM

Five days Student Training Program

On

### "Software Testing"

For the following areas, please indicate your rating from 1 to 5:

1=strongly Disagree 2=Disagree 3=neither agree nor disagree 4=Agree 5=strongly Agree

S N	Topics	1	2	3	4	5
A.	Content					
1	Understood the importance of software testing.				✓	
2	Understood the concept of Test Scenarios, Test case Development and test case deployment.					✓
3	Able to analyze the Mobile app testing on Android Platform.				✓	
4	Understood the concepts in Selenium Automation workshop.				✓	
5	Able to understand the concept of Java application to execute software testing.				✓	
B	Presentation					
6	Instructor's knowledge					✓
7	Instructor's presentation style					✓
8	Instructor covered material clearly				✓	
9	Instructor responded well to questions				✓	
10	Instructor facilitated interactions among participants well				✓	
C. How could this workshop be improved? Good.						
D. Any other comments or suggestions?						
E. Overall, how would you rate this workshop?						
<input type="checkbox"/>	Poor	<input type="checkbox"/>	Good			
<input type="checkbox"/>	Neither Good Nor Poor	<input checked="" type="checkbox"/>	Excellent
