### Impact Analysis

Course Name : Advanced C Programming

Date: 21/09/2018

Academic year: 2018-19

5<sup>th</sup> semester students of Electronics and communication Engineering have attended certification course on Advanced C programming from 17<sup>th</sup> September 2018 to 21<sup>st</sup> September 2018 conducted by **Innovations**, Bangalore.

The course carried for five days which included Data types, Keywords variables, Operators, Control Statements, Loops, Array handling, String handling, Pointers, Structures and Unions, File handling, Dynamic Memory Allocation and Recent year question of TCS code vita test questions. Most of the certification program was a hands on session and students were given with different task to write some code for desired output on open CV platform. Also many placement related C, C++ questions were solved during this session.

A test was conducted based on the technical concepts that were discussed during the course. The test answer sheets were evaluated by the faculty of the department. The test results show that 90% of the students scored more than 18 out of 20 Marks. This result analysis shows that the purpose of the certification course is served and our 3<sup>rd</sup> year students have got enough knowledge of the advanced C programming during the course. Hence the overall outcome of the certification course is achieved.
