## **ENVIRONMENTAL AWARENESS CAMPAIGN**

The Civil Engineering Department of Alva's Institute of Engineering & Technology, Moodbidri, in association with NSS-AIET organized an Environmental Awareness Campaign on **Saturday 9<sup>th</sup> January 2021 in the department Room No. 505 at 10:00 AM.**

World educators and environment specialists have repeatedly pointed out that a solution to environmental crisis will require an environmental awareness and its proper understanding which should be deeply rooted in the education system at all levels of school education. An environmentally aware population makes better informed decisions and choices on complex environmental issues. Ecologically sustainable development requires an informed society that can make balanced decisions based on its economic, social and environmental welfare for current and future generations.

Thus, one of the best ways of preservation is by creating environmental awareness among society especially students as they are future leaders, future custodians, planners, policy makers, and educators of the environment and its issues. The campaign was conducted to know the awareness and sensitivity of the younger generation in environmental issues such as global warming, climate change and waste management. The student groups were told to collect the information regarding environmental issues in the recent years and prepare an awareness campaign with their innovative ideas. Results of the campaign would be of significance to the institution in the planning of activities related to the environment.

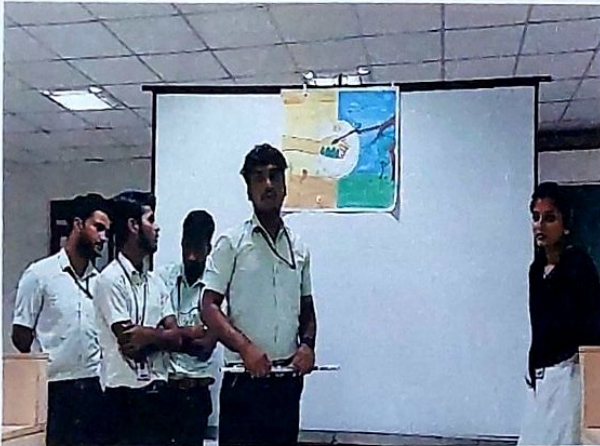

Environmental education is important to make people aware of environmental problems, to make them more knowledgeable about them, to provide them with skills and motivation to resolve those problems and to prevent new ones from occurring. As part of a community education program on solid waste management, environmental education is expected to develop the knowledge, skills and attitudes of the members of the community towards proper handling of wastes.

### OUTCOME

The campaign has helped students to,

1. Evaluate the circumstances that are affecting the environment and have a better understanding of their local environmental issues.
2. Understand how their decisions and actions change the environment, strengthens knowledge and skills needed to address environmental issues.
3. Feel active and discover their love for nature by planning innovative measures for restoring environment.

**Beach Cleaning: 07.03.2021**

The AIET - NSS team participated in the Hejmadi Kodi Beach Clean-up event, which was hosted by the Mantra Surf Club, Mulki, on March 7<sup>th</sup>, 2021, as part of a continuous activity. 44 NSS volunteers of AIET NSS unit actively participated in the cleaning activity. The volunteers were accompanied by Professors Bhargavi and Pradeep Naik as well as NSS Program Officer Prof. Suresh P S. Plastic and glass bottles were collected and separated in over 200 waste bags. The directors of Mantra Surf Club paid a visit to the site and met with the volunteers, praising their active involvement in such projects.

**Outcome:** Many items left on beaches, such as shattered glasses, sharp metals, and hard plastics, have the potential to cause physical harm to beachgoers. Clearing such items from the beach not only save the beachgoers from serious hazards but also enhances the beauty of the landscape. Volunteers developed awareness on environmental sustainability, character development, social consciousness and commitment.

### Beach Cleaning: 04.03.2018

On March 4<sup>th</sup>, 2018, Mantra Surf Club hosted the Hejmadi Kodi Beach clean-up activity. The event attracted **35 NSS volunteers**. Prof. Bhargavi and Prof. Shruthi, as well as the NSS Program Officer Prof. Roshan Shetty participated in the event. Volunteers from various institutions around Mulki also participated in the event. Sri Vivek Alva, Managing Trustee, paid a visit to the location and spoke with the volunteers, praising their active participation in such initiatives.

**Outcome:** The regular beach cleaning activity is planned in light of the fact that the trash not only impacts beachgoers' sentiments, but also impacts the environment and detracts from the natural beauty of the landscape. Volunteers were sensitized to the environmental sustainability, social consciousness, commitment, leadership and team work.
