ABSTRACT

Notes app is used for making short text notes, update when required. It can be used for various functions as we can add lists, some important notes for future reference, etc.

The note taking application is used to take notes digitally without the hassle of physically writing notes. It helps users to add, remove and edit as required The application allows users to make short notes and lists, edit or update them as required and delete them when no longer required. It can be used for various applications and allows quick access to any note that is stored.
