# ABSTRACT

Quick Quiz is an android based application, and enables the user to undertake a series of questions on Java language. The app is user friendly, and the user shall find it extremely easy to answer the multiple-choice questions. At the end of the quiz, a result-report is generated which states the score. The app also presents an option to the current user to play the question-round again or quit in between. There will be limited number of questions and for each correct answer there will be scores. This app develops a user friendly application as it contains 4 activities. There are four Activities in the app: Main which displays Home Screen of application, Questions which displays MCQ's and currents Score, Results which displays Results after finishing the quiz and Developers which displays the information about the developers.
