ABSTRACT

The project entitled "cricket score card system" which is utilized by the user with an update of the cricket even when the user is not watching the match. Each and every match details such as the description about the team and team members will be stored in the repository system in the form of database.

Cricket Score Sheet project is a simple project built using the C programming language. It uses file handling to store various information regarding runs, wickets, overs, extras, and many more. The program can display runs, wickets, names of batsmen and bowlers, overs, extras, economy of bowler, strike rate of batsmen, etc. It also displays the date and time of the game. The source code is complete, error-free and easy to understand.
