EXECUTIVE SUMMARY

The main objective of this study is to gain the knowledge of the production or manufacturing process of the "**OIL AND NATURAL GAS CORPORATION**". This industry is involved with the manufacturing of oil and natural gas products and it is the highest producer of oil and natural gas in India. This industry is a corporation industry by the Government of India. The information collected for this study is from secondary sources, and I took information from various E-sites. The subsequently done as per the minimum requirements of VTU for completion of MBA course. The report is majorly divided into five chapters where chapter 1 consist of introduction to the company. Where I have done a detailed study on the background of the industry and introduction of the industry. And chapter 2 consist of detail study on background, nature, vision and mission and achievements of the company. Then chapter 3,4, consist of detailed theoretical study on various models such as Mckensy 7s model and Porter's five force model, as well as to identify the pros and cons of the company I have analysed the strengths, weakness, opportunities, threats of the company. The report includes the analysis of financial statement for the year – 2021, 2020, 2019, 2018 and 2017 by using the financial statements including balance sheet, income statements and cashflow statements of the organization also the ratios such as Current ratio, Quick ratio, Solvency ratio, Proprietary ratio, Debt equity ratio, return on equity ratio.

The report also includes learning experience and conclusion which is learnt and understood from the virtual organization study on **OIL AND NATURAL GAS CORPORATION**.
