## **EXECUTIVE SUMMARY**

This project report aims at analyzing and reporting on Inventory Management System at Siemens. Siemens is the German Conglomerate Company it includes many Divisions like Industry, Energy, Healthcare and infrastructure. I have done my internship in Siemens Building automation one of the division in organization. It is one of the leading company in the country.

The project report was undertaken for 6 weeks at Siemens, Chennai. The study on Inventory Management System of Siemens is made to understand and analyze how the company is handling inventory in the organization and what is impact of stock administration on operational effectiveness of the organization.

This report include various suggestion, based on various Ratios, financial tools and statistical tools, SWOT Analysis etc. these all analysis are done with the help of gathering information from discussion or interaction with employees, external guide and company website, Annual report of the company and online sources, Books and articles.
