EXECUTIVE SUMMARY

This report describes the 6 week mandatory project conducted by the student at Integer System. The aim of the study is to study an organization, its structure, departments and its functions. The purpose of the project is to get the opportunity to connect the theory taught in classrooms to the practical working in a real organization.

It can be concluded that the company has a strong background in its industry and will continue to be the best company . The management are well prepared for the future technological challenges and they have been adapting to the situation and the government agencies.

More importantly my view of the company is that it is positioned strongly, departments are well managed and employee working conditions are good. There are amicable relations between the various department make possible for Integer System to optimize its functioning. The staffs are very co-operative and time conscious and cultured. Each staff member is taking active part in the organization and they are working according to the rules and regulations of the company.
