EXECUTIVE SUMMARY

Internship is a one of the best opportunity to get a practical experience regarding academics'. It is helpful to gain the opportunities and also develop the working skills, it is one way to apply the theoretical concept to practical experience.

I choose the topic name called **"A study on working capital management at THOMAS COOK India ltd",** analysis of working capital management is one of the main day to day starting process of the every finance company. This report is intended to assist the reader in detailed understand about working capital management.

Next coming to the industry profile Non-banking finance company is engaged in processing of loans and advance and provide services like a bank but it is not a bank.

The project report on "**A Study on working capital management at THOMAS COOK India ltd."** is carried on with objective to study the need of the training and development in an organisation .in the process of study it was found that the organisation gives much importance for the employee training and development activities which helps them to improve their skill level.

Continuous changes has to been done in the training programs to cope up with the technological changes and based on the requirements of the employee training needs. This study clear that employees are satisfied to a greater extent with effectiveness of the programs which helps to minimize the errors and maximize the productivity.
