EXECUTIVE SUMMARY

A project report titled “A study on Financial Statement analysis”. Deccan plast India Private Limited is one among the selling products in a market. Its business spread all over India. Other benefits given to customers are products like Chairs ,tables and crates.

This study is based on the Financial Statement Analysis, which is very much important for the company to a proper calculation and to get proper records. The financial statement analysis is also used to get the proper financial ratios and the trend analysis.

As the economy becomes specific and target based in the case of employment, people should have knowledge to acquire and achieve something which others cannot, gaining knowledge from college and universities are vital but students should explore their knowledge with the partial application of the theories which they studied. Real world experiences will only possible for the students through internship programs. The internship program is designed to availing and engaging students to experience with the scope of learning new things, and where they can use their insights and develop a career through the research.
