EXECUTIVE SUMMARY

Solara Active Pharma Scientific Limited is a government enterprise engaged in manufacturing life saving drugs to the mankind. The purpose of the study is know how efficiently working capital management is managed at Solara Active Pharma Scientific Limited Company.

Working Capital is considered as life blood of business. It is capital required to operate business on day-to-day basis and it varies according to the nature of the business production sales policies turnover credit period collection period etc. The goal of working capital management is to maintain the firm current assets and current liabilities in such a way that a satisfactory level of working capital is maintained.

The working capital need to the firm increase as it is grown in terms of sales or fixed assets.

The need for increased working capital funds does not follow growth in business activities but proceeds. It is necessary to make advance planning of working capital for a growing firm on a continuous basis.
