## **EXECUTIVE SUMMERY:**

This is an attempt to know how the theories can be applied to practical situations. As an MBA student of Alva's institute of engineering and technology, it is a part of the study for everyone to undergo a project on an interesting topic at some good organization. So, for this purpose, I got the opportunity of completing my project in "THE CAMPCO LTD" upon the topic "A STUDY OF INVENTORY MANAGEMENT". This report is divided into five chapters. The first chapter deals with the introduction about the internship, industry profile, and company profile. The second chapter is about the conceptual background and literature review of the topic. The third chapter is about the research design, the Statement of the problem, need for the study, objectives, and scope of the study, research methodology, limitations, and chapter scheme of the report. The fourth chapter deals with the analysis and interpretation of the data collected from the company with relevant tables and graphs. The fifth chapter is about the summary of findings, suggestions & conclusion about the project study. In the end, the report also consists of Bibliography and Annexure.
