CERTIFICATE

This is to certify that the Micro-Project entitled "Micro Controller based Dissolving Process Controller" has been Successfully Completed by

Vinod Raj G N	4AL20EC060
Anuj S Shetty	4AL20CS019
Pallavi P	4AL20ME017
Hrishikesh R	4AL20CV003

The bonafide students of Department of Basic Sciences, Alva's Institute of Engineering and Technology, affiliated to VISVESVARAYA TECHNOLOGICAL UNIVERSITY, BELAGAVI, during the academic year 2020-2021. It is certified that all corrections/suggestions indicated for Internal Assessment have been incorporated in the report. The report has been approved as it satisfies the academic requirements in respect of Micro-Project work prescribed for Bachelor of Engineering.

ABSTRACT

Micro Controller Based Dissolving process controller is used in plants to make solution or to mix two chemicals in a desired amount. Here it is used to make solution of aluminium chloride. With that we can reduce the man power needed. Moreover it is also provided with the options of an administrator who can decide and control the amount and this facility is protected with password.
