DEPARTMENT OF CIVIL ENGINEERING

Date: 01-01-2021

CIRCULAR

Sub: Internship / Professional practice (15/17 CV84)-Reg.

As per VTU regulations all the Final year students shall complete (mandatory) an internship program for a period of minimum 30 days. Preferably students may opt the duration immediately after the odd SEM VTU exams (b/w 21st Feb. and 21st March 2021). So, all the students are instructed to contact the company / organisation well in advance, seek for internship and get the permission letter from the college at the earliest. The companies chosen by students will be screened by the department. Those who have already completed the said duration may also take the internship.

Your internal guides for internship will be your respective project guides and external guides will be from the company. Students should compulsorily maintain the logbook and record the daily activity. This course will be evaluated for 50 marks of internal assessment which would include daily log, presentation and detailed report submission and external viva-voce will be for 50 marks during the 8th SEM VTU exams.

Copy of permission letter from the college and acceptance letter from the company have to be submitted to the internship co-coordinator before going to internship. After the completion of internship, student should collect the certificate from the company and submit a copy of it to internship coordinator.
