

Project Rubrics

Rubrics Used For Evaluation Project Work

Parameters	Allocated Marks	High 20	Medium 10-15	Low 0-8
Review of Literature (Source/Reference: Peer reviewed journals, books, conference proceedings, videos, etc.)	20	Literature Review of the project has a proper link to the problem statement made and objectives are clearly defined	Literature Review of the project has a proper link to the problem statement made but objectives are not clearly defined	Literature Review of the project does not have a proper link to the problem statement made and not clear objectives
Problem & Methodology Novelty: a new or unfamiliar or idea Original:	20	The problem statement, scope and objectives are specified with clarity	Moderate study of the Existing systems; Collects some basic information	Problem statement is vague; Fails to identify or explain method.
Results and Discussions, Conclusion	20	Provides clear interpretation of results that emerge from analysis; Draws logical conclusions from discussion; Identifies and discusses the limitations of the result;	Provides clear interpretation of results that emerge from analysis; But there is no logical conclusions from discussion;	Presented results and discussions are inadequate..
Presentation and Demonstration (Content outline, literature review, problem statement, objectives and methodology, results and discussion, conclusion,	20	The slides presented are in a specific	Contents of presentation are	The team is not able to justify and articulate

references)		format and in logical order; Explanations are clear and are aided with properly formatted figures/charts etc.; Contents are properly cited and the references are provided	appropriate but not well delivered Not all contents are properly cited;	most of the above criteria; Slides presented are not in logical order; Explanations are ambiguous;
Team work and progress	10	High 10	Medium 9-5	Low 0-4
Project Report Format of the report (Introduction, Literature review, Problem definition, Methodology, Design and implementation/Experiment/Simulation, Results and Discussion, Conclusion, References)	10	Format for text, tables, figures, charts, etc. is strictly followed; Organization of the content is in logical order with all sections mentioned in the <i>Guidelines</i> ; Explanations are clear with properly placed figures and tables; Contents are properly cited.	Format for text, tables, figures, charts, etc. is strictly followed; Organization of the content is not in logical order with all sections mentioned in the <i>Guidelines</i> ; Explanations are not clear. Contents are not properly cited.	Format is not as per standards; Organization not in logical order; Explanations in the report are not clear; Citations are improper.
