

2.6.2 Attainment of Programme Outcomes and Course Outcomes are evaluated by the institution.

Institute follows the Outcome Based Education(OBE) as directed by affiliated University(VTU) and AICTE.

Process involved in attainment calculation

- Initiate the process through department level Circular indicating defining/revising CO-PO/PSO mapping with justifications.
- Preparation of I.A Question Papers by adhering the policy of teaching learning.
- The assessment of the COs involves formative assessment tools (Internal tests, Assignment, Quiz, Seminar, etc.) and summative assessment tool (Semester End Examination).
- Direct CO-PO/PSO attainment is calculated by allotting a weightage of 50% each to attainment through Formative assessment and Summative assessment.
- Further, Course end surveys are conducted (Except First year courses) to obtain voice of students on attainment of COs and POs at the end of each semester for Indirect assessment. The CO-PO/PSO attainment calculated based on course end survey is termed as indirect attainment.
- Final attainment of each of the POs/PSOs are calculated by allotting a weightage of 90% to Direct attainment and weightage of 10% of Indirect attainment.
