Sub: Request to Provide the Permission to conduct a Seminar on Research Methodology

Sir,

As per the subject mentioned above, Department of Chemistry is organising a seminar on "Necessity of Defining the research Problem" on Saturday, 11/03/2017. In this regard, we are inviting Dr. Pavithra G. P., Department of Chemistry, AIET, to conduct the session.

You are kindly requested to permit us to organise the seminar for the faculties of all the departments of AIET.

Thanking You,

Yours Sincerely,

H.O.D.

“Necessity of Defining the Research Problems”

Report: Necessity of Defining the Research Problems

About the Resource Person:

Dr. Pavithra G.P was the resource person of seminar. She is working as Assistant Professor in department of chemistry. She has completed her Ph.D in NITK Suratkal. With 5 years of teaching experience she is expertise in Electrochemistry and Materials Science. She has published a good number of quality research articles in the journals of National and International repute and working on funded research projects in the field of her research interest.

Brief report of the Program:

According to the famous statement- a problem clearly stated is a problem half solved. In research background it signifies the need for defining a research problem. Here any investigations to be explored must be defined clearly, so that it will help to discriminate relevant data from the irrelevant ones. In this context Department of Chemistry, AIET organized a seminar on "Necessity of Defining the Research Problems" for all the faculties on 11/03/17 in Engineering Seminar Hall.

The resource person Dr. Pavithra G.P explained that a proper definition of research problem will enable the researcher to be on the track whereas an ill-defined problem may create hurdles. Further she continued that only on careful detailing the research problem that we can work out the research design and can smoothly carry on all the consequential steps involved while doing research.

Dr. Pavithra G. P. delivering her talks during the session

As a result of this session, the audience were able to understand about some basic concepts of research problem, how to define a research problem and its importance to proceed through the research activity.
