Report

FACULTY DEVELOPMENT PROGRAM

ON

**Role of Undisclosed Information
in Intellectual Property**

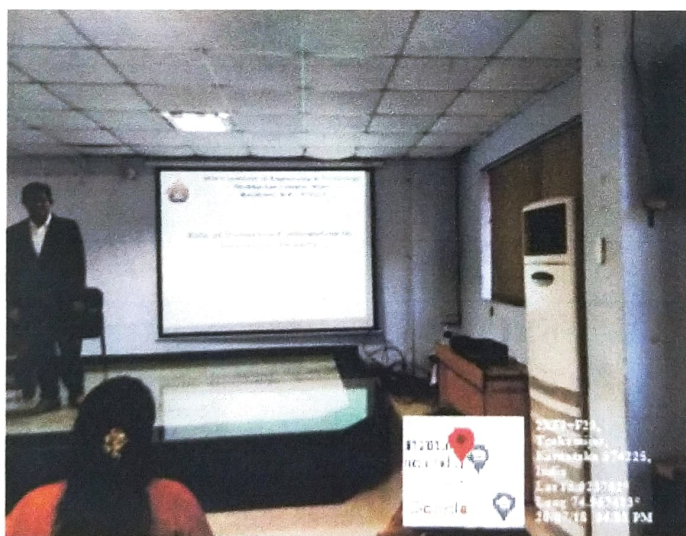

Name of the Program: Role of Undisclosed Information in Intellectual Property

Details of the Resource Person:

The resource person of the IPR session was Mr. Ajith Kumar. Mr. Ajith Kumar is an Advocate, and working as Guest Lecturer in Alva's Institute of Engineering and Technology, Moodbidri. He has completed his L.L.B from Mangalore University in 2009 and L.L.M. at S.D.M Law College, Mangalore in the year 2012. He is expertise in delivering informative talks on IPR and Patent filings.

Brief Report:

Protection of undisclosed information is least known to players of IPR and also least talked about, although it is perhaps the most important form of protection for industries, R&D institutions and other agencies dealing with IPR. To give the awareness of patents AIET conducted one day FDP on Role of Undisclosed Information in Intellectual Property on 20/07/2018 in Engineering Seminar Hall. The FDP was conducted for the faculties of AIET, wherein 26 faculties have attended the FDP from various departments.

Mr. Ajith Kumar interacting with the audience during the session

Mr. Ajith Kumar explained about the undisclosed information, generally known as trade secret or confidential information, includes formula, pattern, compilation, program, device, method, technique, or process.

Outcome of the Program: By attending this session on IPR, the audience was able to know about that the protection of undisclosed information or trade secret is not really new to humanity; at every stage of development people have evolved methods to keep important information secret, commonly by restricting the knowledge to their family members.
