A patent is awarded for an invention, which satisfies the criteria of global novelty, non-obviousness, and industrial or commercial application. Patents can be granted for products and processes. To give the awareness of patents AIET conducted one day FDP on Various Intellectual Efforts for IP Protection on 13/11/2019 Engineering Seminar Hall.

The resource person for FDP was **Mr. Ajith Kumar**, advocate he explained about the IP protection can be sought for a variety of intellectual efforts including importance of Intellectual Property Rights. Therefore, copyright may not be considered a territorial right in the strict sense. Like any other property IPR can be transferred, sold, or gifted.

The workshop was conducted for all AIET faculties.
