**01. AIET MECHANICAL DEPARTMENT IN ASSOCIATION WITH NSS
CONDUCTED A PLASTIC AWARENESS PROGRAM FOR PRIMARY AND HIGH
SCHOOL STUDENTS.**

The plastic awareness program conducted on usage of plastics and its effect on environment and living beings for government primary and high school students on **06-03-2021 at government primary and high school, Mijar**. Fifth semester students are explained to primary and high school students about excess use of plastics and its effects on environment and all living beings. About 35 fifth semester mechanical engineering students were participated in this program.

Fifth semester mechanical students explained about plastic pollution, the accumulation of plastic objects in the earth's environment that adversely affects wildlife, wildlife habitat and humans. Students also explained clearly the causes and consequences of excess use of plastics.

And highlighted on general and shocking facts of plastic pollution, ways to reduce the use of plastics and find alternative or substitute for plastics.

Dr. Peter Fernandes principal, AIET, speaks on this occasion about importance and useful of plastics in domestic and industrial application, people are addicted with the use of plastic because of light in weight, good quality and cheaper in cost. So totally we can't avoid the use of plastic suddenly. Hence use of low plastics can be avoided in step by step to reduce plastic pollution.

At the outset our fifth semester mechanical students succeeded and enlighten the young minds about plastic awareness program. All primary and High school students are benefitted about the program.

“Plastic Awareness Program (2020-21)”

Event Outcome

- The awareness about the plastic bottle and sanitizer bottle reuse was shared with the students.
- Students were able to understand the importance of reducing the plastic usage.
- Students were able to create awareness among the students of the school about plastic and its effect on environment.
- Presentation skills of the students were improved.
- Alternates for the plastics such as cloth bags, paper bags were discussed in the program.
