About BACCE Foundation:

BACCE is a registered non-profit entity comprising of various inspired individuals from variegated disciplines. At the heart of all its activities has been the shaping of values in society for enhanced performance and sound well-being. BACCE offers a series of seminars, workshops, conferences and symposiums on various topics such as IQ-EQ-SQ values, character traits, Secrets of Success, pre-placement training and much more. These workshops are designed to empower the youth to face the challenges posed in current scenarios. It offers simple, practical and relevant solutions packaged in a youth friendly manner. It contains interactive sessions, games, practical case studies, easy-to-apply tips and more. BACCE is primarily focused on social re-engineering, i.e. to transform youth into refined, cultured and civilized gentle beings having a strong value system as the basis of all the activities they perform. Most of our training programs and modules are in-line with the "Program Education Objectives" of the NBA (National Board of Accreditation) like 'The Engineer & society', 'Environment & Sustainability', 'Individual & team work', 'Communications', 'Life-long learning', 'professional and ethical responsibility', 'knowledge of contemporary issues global, economic, environmental, and societal context of engineering' and 'meet desired needs within realistic constraints such as economic, environmental, social, political, ethical & health'. Our competent team members would be covering most of the above domains effectively.

About Soft skills:

Soft skills are a combination of interpersonal people skills, social skills, communication skills, character traits, attitudes, career attributes, social intelligence and emotional intelligence quotients among others that enable people to effectively navigate their environment, work well with others, perform well, and achieve their goals with complementing hard skills. The Collins English Dictionary defines the term "soft skills" as "desirable qualities for certain forms of employment that do not depend on acquired knowledge: they include common sense, the ability to deal with people, and a positive flexible attitude.

Organizations that endeavour to be on the path of continuous learning will often find that upgrading the 'soft skills' of their workforce is a necessary part of business. It not only helps improve service but also shows the interest that an organization has in the professional development of their employees, which in turn leads to higher employee retention.

Many organizations look for soft skills which are high in the list of requirements for global business; hence an important part of management training. Soft skills such as Cultural Sensitivity, Business Etiquette and good Communication Skills (telephone etiquette, email etiquette, information gathering and listening skills) make a greater impact on clients from across the world rather than a high degree of technical-skills.

BHAKTHIVEDANTA ACADEMY FOR CULTURAL & CHARACTER EDUCATION

FOR SECOND AND THIRD YEAR ENGG. STUDENTS

2019-20

Date: 28/11/2019

APTITUDE AND SOFT SKILL TRAINING BY
BHAKTHIVEDANTA ACADEMY FOR CULTURAL & CHARACTER EDUCATION
(BACCE) FOUNDATION

ACADEMIC YEAR 2019 – 2020

Aptitude Tests are taken by the companies to eliminate the number of candidates. Since there is way too much competition in India and each interview is going to incur some cost to the company, the main goal of a company is to interview only those candidates who are intelligent as well as serious. If the candidates are able to solve the aptitude test of a company then it ensures to the company to some extent that they are sufficiently intelligent and as well as serious as they might have prepared for the aptitude section in particular for the job.

Soft skills are becoming increasingly important in today's burgeoning digital and technological accomplishments. For students to stand out as promising assets to multinational organizations, they need to invest in the sharpening of what are labelled as soft skills. The most important soft skills that is required to perform well in interviews includes Leadership skills, Interpersonal Skills, Problem solving skills, Communication Skills, Creative Thinking.

In this regard, the Aptitude and Soft Skill training were conducted for 3rd and 5th semester students (all branches) of AIET for the academic year 2019 – 2020 association with **BHAKTHIVEDANTA ACADEMY FOR CULTURAL & CHARACTER EDUCATION (BACCE) FOUNDATION, Mangalore.**

TRAINING OBJECTIVES:

- Developing the students to meet the Industries' recruitment process
- Make them employable & streamline their inherent skills
- Aiming to place maximum number of students through campus & off-campus drives conducted by top companies

- To motivate students to develop technical knowledge and soft skills in terms of career planning, goal setting.

The following are the major areas covered during the aptitude and soft skills training sessions:

- Profiling and Segregation
- Study techniques
- Quantitative aptitude and Logical Reasoning
- Verbal Ability
- Email Etiquette
- Motivational Sessions
- Confidence building
- Team building, Communication
- Interpersonal skills
- Resume writing

The aptitude training sessions were conducted by Mr. Narasimha Kamath, Ms. Deeksha, Mr. Sushanth and various aspects of softskill training were given by Mr. Vishal, Mr. Suman and Mr. Subham from BACCE FOUNDATION.

Objectives

This unique project is an ardent attempt to empower the students by traversing through the "Pre-Placement Training" Program which includes **holistic approach in soft skills, behavioural skills reasoning, quant, mock GD & interview, motivational talks** and many more. We will try to mould the young minds who, have a treasure house of enthusiasm, in the best possible way as embarked and aspired by the industry, & Alvas Education Foundation.

About BACCE Foundation

BACCE is a registered non-profit entity comprising of various inspired individuals from variegated disciplines. At the heart of all its activities has been the **shaping of values** in society for enhanced performance and sound well-being. BACCE offers a series of seminars, workshops, conferences and symposiums on various topics such as **IQ-EQ-SQ** values, **character traits, Secrets of Success, pre-placement training** and much more. These workshops are designed to empower the youth to face the challenges posed in current scenarios. It offers simple, practical and relevant solutions packaged in a youth friendly manner. It contains **interactive sessions, games, practical case studies**, easy-to-apply tips and more. BACCE is primarily focused on **social re-engineering**, i.e. to transform youth into refined, cultured and civilized gentle beings having a strong value system as the basis of all the activities they perform. Most of our training programs and modules are in-line with the "**Program Education Objectives**" of the **NBA (National Board of Accreditation)** like *'The Engineer & society', 'Environment & Sustainability', 'Individual & team work', 'Communications', 'Life-long learning', 'professional and ethical responsibility', 'knowledge of contemporary issues global, economic, environmental, and societal context of engineering' and 'meet desired needs within realistic constraints such as economic, environmental, social, political, ethical & health'*. Our competent team members would be covering most of the above domains effectively.

Modules

3.a Verbal Ability, Reasoning & Quant

Every now and then we encounter someone who demonstrates excellence on the job. Excellence, true excellence, is something we prize but seldom see. It's a joy to encounter someone who is truly excellent at what they do. Why is that so rare? More importantly, how can you become known as a man or woman who consistently demonstrates excellence? *Aptitude* is required for *excellence*. The reach of human mind is infinite. To judge its IQ level, the only concrete approach is "**Aptitude Test**". Setting the pace of the race among the Government, Public, IT and the Non-IT Sector, giving them a new standard each time defining the quality of the youth able to take the whole world to a new different level. Aptitude is the first hurdle to achieve the dream career, for which there are **no shortcuts**.

Aptitude Tests are designed to measure your natural talents and involves a series of separate tasks which each draw on a different aptitude. The results help you to determine which inborn abilities to make it easier for you to learn or do certain things; that is they describe what you were "**born to do**". Since different occupations or even subjects of study often require different specific aptitudes, it can be very helpful to know your ease of success before you embark on a long **career battle** or educational program.

Most people will assume that anyone with a degree in MBA, IT or law or any other subject possibly sails through the life smoothly. Statistics reveal that you require **15% technical** skills and **85% Social** Etiquette, Business Etiquette & Dining Etiquette to make an advancement in your career or personal life.

Advantages of Aptitude Training

1. Improves your mental ability.
2. Skill Acquisition.
3. Develops Speed.

4. Gains Confidence.
5. Develops innate learning ability to understand and reason.
6. Assess your own Strength and Abilities.
7. Develops the ability to think outside the box.
8. Acquired disposition or capacity for a particular activity.
9. Relatively free of bias and prejudice.
10. Cost effective as the high predictive value helps ensure a good job fit.

3.b Communication & behavioural skills

Research has shown that for the most part, employees are value very good at what they do. That's why they are hired, trained, retrained, and promoted. They are all "**subject matter**" experts. Their problems occur when they attempt to communicate their subject to others. They have had extensive training and experience in performing their jobs, but very little training in **effectively presenting** their ideas to others.

The ability to communicate is the most powerful resource for succeeding in business and personal life. Yet most of them may have the **natural "human"** tendency to only listen well when you happen to already agree, to say exactly what you mean only to friends or one-on-one, or other unfortunate side-effects of stress, old habits, or lack of time. Thanks to the British system of education being following in our country where we hear, hear and only hear, with **zero opportunities** to communicate our thoughts right across.

Whether you are conducting a meeting, making a presentation or talking one-on-one, verbal communication is an essential leadership competency. In these sessions, we will learn how to deliver our message **clearly, concisely, persuasively** and **memorably**.

In summary, this program addresses the development of skills that move beyond the dimension of technical knowledge. While technical aptitude is important for the success of professionals with-in any organisation, **people skills** are equally important. Through this program, we focus on the development of people skills & behavioural dimensions for success in any role.

3.c Soft skills

Soft skills are a combination of **interpersonal** people skills, **social** skills, **communication** skills, **character** traits, **attitudes**, career **attributes**, **social intelligence** and **emotional intelligence** quotients among others that enable people to effectively navigate their environment, work well with others, perform well, and achieve their goals with complementing hard skills. The Collins English Dictionary defines the term "soft skills" as "desirable qualities for certain forms of employment that do not depend on acquired knowledge: they include common sense, the ability to deal with people, and a positive flexible attitude.

Organizations that endeavour to be on the path of continuous learning will often find that upgrading the 'soft skills' of their workforce is a necessary part of business. It not only helps improve service but also shows the interest that an organization has in the professional development of their employees, which in turn leads to higher employee retention.

Many organizations we have worked with point out that soft skills are high in the list of requirements for global business; hence an important part of management training. They have found that soft skills such as **Cultural Sensitivity, Business Etiquette and good Communication Skills** (telephone etiquette, email etiquette, information gathering and listening skills) make a greater impact on clients from across the world rather than a high degree of technical-skills.

We focus on Training and Development. Our soft skill training programs **encompass** a wide range of skills that most organizations find an **integral** and necessary part of everyday dealings. From basic communication skills to strategy and change management Training Solutions offers a wide range of soft skills training to address every developmental need.
