SUPPORT FROM Engineering college

1. Professional consultancy by the faculty to industries
2. Short-term assignment to faculty members in industries

PRINCIPAL
Alva's Institute of Engg. & Technology,

This partnership through MoU is for the benefit the student community as it provides them an opportunity to expose to current industry practices, and help them in updating their knowledge to advanced technology in use. The teaching faculties also get sensitized to the latest practices helping them to blend hands-on with usual theoretical teaching methods.

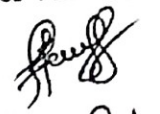

Rules governing internship and placement

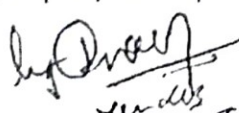

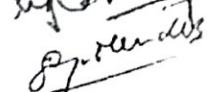

1. The interested students in third year engineering (circuit branches) will be selected for internship in the begin of their Fifth semester by VS technologies.
2. These students have to attend internship for designed number of 15 days or 60 hours in a semester. They have to bear the Registration fee rupees 2500/domain on their own. During Training if a student damages the components NO damage charges will be collected. The company will set up embedded lab by the cost of company.
3. The students of second year may also be considered for the internship on same line during vacation, if interested.
4. A student may undergo internship in multiple domains simultaneously or independently
5. A separate internship certificate for each domain successfully completed would be given
6. The college as well as VS technology will not have any kind of financial commitment over each other

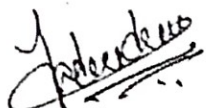

IN WITNESS WHEREOF PARTIES HERE TO HAVE ENTERED INTO THIS AGREEMENT
EFFECTIVE AS ON THE DATE AND YEAR FIRST WRITTEN ABOVE.
