1. About the Library

Alva's Institute of Engineering and Technology (AIET) was established in 2008 it is affiliated to VTU Belagavi, approved by AICTE New Delhi, recognised by the Govt. of Karnataka and accredited by NBA (CSE & ECE). It is an educational foundation with a distinctive academic profile, blending its commitment to a rural ethos with a modern spirit. The AIET library has a modern and well-equipped building, which offers excellent infrastructure facilities for reading, borrowing, and referencing.

This Central Library, located at the heart of the Institution, is easily accessible to the department, classrooms, and hostels. The building occupies a total area of about 1540 sq. mt and has the 1st floor. The building has a seating capacity for more than 280 users at a time. Over 24,000 volumes are available. The library is fully automated with an RFID system and barcode reader with OPAC (Online Public Access Catalogue). The library has kept pace with modernization by introducing the Digital library with E-journals. E-books, database, CD-ROMs, Internet, and e-mail facilities to the students and staff community. The library has been provided with excellent facilities for self - learning of the students beyond institution hours. The Librarian is the head of the department and he is directly responsible to the principal of the college for the performance of his duties and there is an assistant librarian to deal with the day to day activities of the library.

2.1 Circulation section

The Department of Library and Information Centre is enriched with a huge collection of valuable books. To make the functioning of the library easy and effective, the college library is automated using an Integrated Library Management System called **EASYLIB** software (EASYLIB 4.3.3 version) 2009 onwards. The software consists of various modules for acquisition, cataloguing, circulation, serials control, and Online Public Access Catalogue (OPAC).

The EASYLIB software was upgraded to WEB 5.0 version in 2016 presently this software were upgraded to Cloud version 6.4a (in 2021). This new version fully automated with RFID technology which enables to issue, renewal of books, maintain the database of books, journals, periodicals and to maintain the data of students and faculty who utilize the library resources. Users can access the library facilities including OPAC beyond the campus through remote access facility. This technology makes the library more accurate and save the time of users.

Web OPAC (Online Public Access Catalogue) facility is made available in this software to know the bibliographical details about the collection. Two separate nodes are made available in the Central Library for OPAC facility.

Security of library resources is ensured through a system of checking at the exit point for all resources borrowed by the users. RFID system can help the circulation of books and track the Visitor time of entry and exit. CCTV cameras are installed in the library for strict surveillance.
