

**4.3.2 Student - Computer ratio (Data for the latest completed academic year)**

The IT infrastructure facility acts as catalyst for accelerating the Teaching-Learning Process. In this regard the Institute strategically upgrades computer facility provided to students to attain optimal student computer ratio. Also it helps to get hands on training for the students in the area of work.

The institute has **45 class rooms** for the students, and **seven seminar halls, one auditorium and sufficient number of labs**. Institute also has few additional labs for the use of students and faculty members. The student strength in the last completed year (2020-21) is **1722** and the computers provided for student usage is **848**. The institute is trying to maintain the **student-computer ratio to 2:1**. In every year, institute is purchasing new computer systems for students' use in the various places of the institute like classes, Labs, seminar halls, library etc.
