

**4.4.2: There are established systems and procedures for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc.**

The Institute follows well organized SOP driven maintenance practices in order to have periodic maintenance of the overall facilities available in the institute like Physical facilities, laboratory, library, sports complex, computers, classrooms etc. Also, timely redressal of the issues in the infrastructure and other physical facilities ensures optimal resource usage and boost the facility's availability.

- Physical facility maintenance includes plumbing, electrical, building and infrastructure, garden and housekeeping. Maintenance of these facilities are monitored by Administrative Officer of the institute.
- IT Maintenance includes maintenance of computers available in institute which is monitored by system administrator of the institute.
- Periodic reporting on requirements of repairs and maintenance of laboratory equipment are maintained in breakdown/maintenance register and the stock books of laboratory by the lab instructors.
