ABOUT THE INSTITUTE

Alva's Institute of Engineering & Technology (AIET) is a premier Engineering Institute of Alva's Education Foundation (R) established in the year 2008. AIET is strategically located adjacent to Moodbidri -Mangalore National Highway 169, and is 24 kms from Mangalore International Airport. AIET has excellent infrastructural facilities, spacious classrooms, well equipped laboratories, separate hostels for boy & girls within the campus, modern amenities, food court, transportation facility, a well stocked -of-the-art Digital Library, Wi-fi enabled Campus. AIET has a dedicated placement cell comprising counsellors, corporate trainers working to bridge the industry-academic gap and also organizing major placement initiatives like Alva's Pragati-Udyog Mela for over 8 years.

COURSES OFFERED

B.E.— Civil Engineering, Mechanical Engineering, Computer Science & Engineering, Electronics & Communication Engineering, Information Science Engineering, Master of Business Administration.

M. Tech.- Thermal Power Engineering, Computer Science & Engineering, VLSI Design & Embedded System.

ABOUT CIVIL ENGINEERING DEPARTMENT

The Bachelor's degree in Civil Engineering in AIET was started in the academic year 2009-10 with an intake of 60 students. The department offers a full time B.E degree course in Civil Engineering. Our department organizes seminars, workshops & Industrial visits for the benefit of students and faculty which would bring exposure of the recent trends in Civil Engineering. Students involve in the consultancy projects obtained through various govt. and non-govt. agencies. The infrastructure available in the department facilitates students to develop their skill and knowledge within the framework of curriculum prescribed by the Visvesvaraya Technological University. Our vision is to make every student a better engineer having excellence in education, entrepreneurship & innovation along with qualities like high ethical standards, integrity & credibility.

We are committed to set up a centre of excellence by offering quality technical education and providing research opportunities in civil engineering and making our students technically the best and ethically strong.

OBJECTIVES OF WORKSHOP

The objective of this workshops is to share the methodologies and processes used in order to benchmark and analyze the steel industry's performance on diverse topics such as safety, maintenance & reliability. Workshop strives to expand the use of steel in the residential, commercial infrastructure, industrial and rural segments of the construction industry as a platform for all connected to the steel value chain - architects, consultants, structural engineers, steel producers, contractors, fabricators, hardware suppliers, government agencies, etc. Workshop prompt advisory service on materials, construction practices, interpretation of codes etc. and creating an environment for better usage of steel by acquiring and disseminating knowledge about the best practices, creating awareness amongst potential users about affordability and benefits of steel construction.

Keeping this in view, AIET is organizing a five days state level workshop in DESIGN, CONSTRUCTION & FABRICATION OF STEEL STRUCTURES to enhance the skill set of the Teaching Fraternity, Research Scholars, Site Engineers & Students.

At AIET, it is our genuine interest to inculcate an environment where all are motivated & propelled by research culture. We welcome research scholars, academicians, site engineers & students to be a part of this workshop.

TOPICS TO BE COVERED

Introduction to Iron & Steel Making.
Steel Products portfolio, properties, codes, Testing.
Introduction to Structural Design.
Connection Design- Bolted, Welded.
Member Designs under Tension, Compression, Flexure, Combined Forces.
Analysis & design of steel columns.
Designing and Detailing of Base plates for Columns.
Design Methodology for Tubular Structures with examples.
Failures and reasons for failures in steel structures.
Passive Fire Protection of Steel Structures.
Structural design and Structural detailing of truss bridge for pedestrians.
Fabrication & Erection, Handling, transporting of material.
Use of Software for welding/fabrication drawing.
