Padmashri Dr. A.S Kiran Kumar,

Ex - Chairman, ISRO

TOPIC: “*India’s Milestones in space technology*”

DATE: 21th August, 2018

VENUE: AIET Auditorium

INVITE

REPORT

The Inaugural talk by Rostrum-the speaker's club was presided by Padmashri Dr. A S Kiran Kumar, Ex-Chairman, Indian Space Research Organization along with Mr. Vivek Alva, Managing Trustee, Alva's Education Foundation, Dr. Peter Fernandes, Principal, AIET, Dr. Kurian, Alva's Degree College and Mr. Ranjan Bellarpady, Chief coordinator – Swacch Manas, Ramakrishna Mission, Mangalore

Introduction of the guest: Aluru Seelin Kiran Kumar (born 22 October 1952) is an Indian space scientist and former chairman of the [Indian Space Research Organisation](#), having assumed office on 14 January 2015. He is credited with the development of key scientific instruments aboard the [Chandrayaan-1](#) and [Mangalyaan](#) space crafts. In 2014, he was awarded the [Padma Shri](#), India's fourth highest civilian award, for his contributions to the fields of science and technology. Kiran Kumar previously served as Director of Ahmedabad [Space Applications Centre](#).

ALVA'S INSTITUTE OF ENGINEERING & TECHNOLOGY

Shobhavana Campus, Mijar, Moodbidri, D.K – 574225

Phone: 08258-262725, Fax: 08258-262726

Kiran Kumar Aluru Seelin was born in a hindu family in [Hassan District](#) in 1952, in the Indian state of [Karnataka](#). He graduated in Physics (Honours). In 1971, from the National College of [Bangalore University](#). This was followed by a degree of MSc in Electronics from the same university, in 1973. His further studies were at the [Indian Institute of Science, Bangalore](#) from where he passed MTech in Physical Engineering, in 1975.

Kiran Kumar started his career, joining [Space Applications Centre](#), Ahmedabad, in 1975, working on *Space borne Electro-optical imaging instruments*. He has remained at the institution ever since and is the Director of the Electro-optical Systems Group since April 2012. He has represented Indian Space Research Organization at many international forums such as the [World Meteorological Organisation](#) and Indo-US Joint Working Group on Civil Space Cooperation and holds the Chair of the ISRO *Committee on Earth Observation Satellites* (CEO).

Event: Chairman of the Space Commission A.S. Kiran Kumar said the ISRO has been a champion in demonstrating the use of space technology for societal good. He was speaking after inaugurating the Speakers' Club, Rostrum, at Alva's Education Foundation in Moodbidri near here.

Space technology, as the powerful enabler, provides a variety of vital inputs for holistic and rapid development of the country. ISRO has launched many satellites since the space programme was set up in 1969 for various scientific and technological applications. It includes tele-fishery, mobile communications, broadcasting, meteorological observations, telemedicine, tele-education, disaster warning, search and rescue operations, he said. Dr. Kumar said: "Science and technology itself is neutral, but it is the person who decides whether it is used for good or bad. Taken for an example, atom power can be utilised for nuclear explosion or power plant. However, knowledge and skill you acquire needs a strong character to mould it for larger benefit of the society."

"At this point in time, we have to significantly enhance our capacity in our basic capabilities of observation, communication and navigation," he said. Technologies that would help in sending an Indian astronaut to space by 2022, as announced by Prime Minister Narendra Modi, would be another milestone in the history of ISRO, he said.

About 950 students from AIET and Alva's Degree College attended this talk on the topic "***India's Milestones in space technology***".

Dr. P Nagabhushan,

Director, IIIT Allahabad

TOPIC: “*Youth Empowerment of the country*”

DATE: 23rd August, 2018

VENUE: AIET Auditorium

REPORT

The guest talk at Rostrum-the speaker's club by **Dr. P Nagabhushan, Director, IIIT Allahabad** was hosted at AIET. The session had the presence of Mr. Vivek Alva, Managing Trustee, Alva's Education Foundation.

Introduction of the guest: Dr. P. Nagabhushan, Director, Indian Institute of Information Technology, Allahabad is Professor in Computer Science and Engineering, University of Mysore, Mysore. He has more than three and half decades of teaching experience. Prior to joining IIITA as Director, he has served several administrative positions such as Chief Nodal Officer, Choice Based Credit Pattern Continuous Assessment Education System, University of Mysore; Director, Planning, Monitoring and Evaluation Board; Dean, Faculty of Science and Technology; Director, Center for Information Science and Technology at University of Mysore, Mysore, India. He was also distinguished Professor and Chairman at Amrita Vishwavidyapeetam, Amrita University, Coimbatore; Director, Bangalore Educational Society for Technology Advancement and Research and Principal, Bangalore Technological Institute, Bangalore. He is actively associated with various academic, statutory and professional bodies.

He is the member of academic councils and Board of studies of several universities. He has been serving as an active member of Technical Advisory committee at Indian Statistical Institute, Kolkata, School Board member of the Central University of Hyderabad and Academic council member of Islamic University of Science and Technology, Awantipora, Jammu & Kashmir. He is also visiting Professor and acting as a subject expert in many Universities and Institutes. There are various high profile committees of AICTE, UGC, DST, PSC, NBA, ISRO, DRDO, RECs (now NITs) where Prof. Nagabhushan was an active

member. Prof. Nagabhushan has worked as Investigator in several major funded projects. On the academic front, he has successfully guided 28 numbers of PhDs and has authored more than 500 numbers of Research Papers out of which more than 100 papers are DBLP indexed. The citation index of 1856 with H-index of 21 and i10 index of 53 reflects his academic accomplishments.

Event: Strong foundation, problem solving attitude and free expression is the hall mark of competent and capable engineer said, Dr P Nagbhushan, director, Indian Institute of Information Technology, Allahabad.

He said, “Our heart should echo with what we do, but not something which is compelled upon us. The whole process of learning should be pleasurable and meaningful to learner. Then only the core objective of learning would be served.” Criticizing the process of preparing children, he said, “The process of preparing for something is foolishness, where as we should focuses on making our students learn comprehensively and act instantly on the gained knowledge.”

Commenting on the present attitude of colleges behind the placing their students, he mentioned it has very unfortunate development, where learning is totally neglected. He said, “We should create an atmosphere where employer should come and ask for an employee rather than employee requesting for job with employer. However, the strong foundation, skill sets, creativity and confidence would accommodate candidate stand unique and make hireable anytime.”

He said, “Engineering is creating that foundation which invisible repository of knowledge which shall be accessible instantaneously to solve a situation, at right point of time in right way. Once you gain this expertness, you would be in demand always. However, Alva’s nurturing its students in same line and spirit.”

Presiding over the function Alva’s Education Foundation trustee Vivek Alva said that students should make use of the linkage between AIET and IIIT, Allahabad in their all spheres of learning.

Phone: 08258-262725, Fax: 08258-262726

The guest talk by Rostrum-the speaker's club hosted Guru Gaur Gopal Das, International Life Coach at Nudisiri Vedike, Vidyagiri Campus with over 4000+ audience. They include, students from across Alva's Education Foundation who purchased the book 'Life's Amazing Secrets' and also invited across Moodbidri and Mangaluru. The function was presided my Dr. M Mohan Alva, Chairman, Alva's Education Foundation. The inaugural function also contained the book release event of the book 'Life's Amazing Secrets'.

Introduction of the guest: Gaur Gopal Das is an Electrical Engineer, having studied at the College Of Engineering, Pune. After a brief stint with Hewlett Packard, he decided to upgrade his career to be a life coach. Consequently in the year 1996 he joined ISKCON & has been very active in this field ever since.

Serving in the leadership at the ISKCON Chowpatty branch, Gaur Gopal Das has been speaking at various prestigious academic institutions in India and abroad for over 2 decades. He has been very actively involved in guiding leading doctors & medical professionals across the globe. Corporate firms like Google, Sales Force, Infosys, Barclays, Bank of America, E&Y, Ford have not been an exception in his areas of continual help & guidance.

Gaur Gopal Das also regularly visits the members of the Rotary Club & Lions Club for talks and guides various top ranking celebrities and corporate leaders. He has also spoken at several TEDx events. During his 2016 visit to London, he gave a talk at the British Parliament.

He was awarded the 2016 Rotary International's Super Achiever Award for outstanding contribution in field of spirituality and inspiration. He was awarded 'Danveer Karna Award' by KIIT University to recognize his selfless contributions to promote the ideologies of 'Art of Giving' and compassion throughout the world. He was recently awarded 'The Ideal Young Spiritual Guru Award' by the Indian Student Parliament, MIT for his remarkable contributions in offering spiritual guidance to the world at such a young age.

Event: He was delivering a special talk on 'Secrets of Success,' organised by Rostrum, a Speakers' Club of Alva's Education Foundation. "Success does not mean achievement. Its definition keeps on changing. Through the changing times success achieved in the previous stages becomes irrelevant and the achievements should never be considered as success in present time. Your talent and skills may take you to certain heights but the attitude filled within you is what takes you to the higher destiny," he added. He revealed three keys of success as 3 C's. "Choosing to be better version of oneself, change with the changing time, connect as a support system will help in success. Failures are part of life they should be taken as positive steps towards success," he

exhorted.

While explaining the necessity of adopting the changes, he said, 'When Facebook acquired Microsystems, Mark Zuckerberg didn't replace Sun Microsystems's sign. Instead, he flipped it over and put Facebook's name on the front. The Sun logo reminds employees to stay motivated. It demonstrates what can happen when you're on top but fail to innovate.'

Mr.Satwik

M.Sc-English, Rostrum Alumini

TOPIC: *“How to make a logical argument”*

DATE: 12th Feb, 2019

VENUE: Alva's PG Hall, Vidyagiri

REPORT

The guest talk on “How to make a logical argument” by Mr. Satwik was organized Rostrum-the speaker's club which was presided by Mr. Deepak Raj, Rostrum coordinator

Introduction of the guest: Mr. Satwik is an alumni of Alva's College who pursued his Masters in Literature in Alva'Spg College,Vidyagiri.

Event: The session started with Mr. Deepak Raj welcoming the guest. The students were the Rostrum members from all departments of AIET. The session started by Mr. Satwik explaining the rostrum members from across the education institutes under Alva's Education Foundation. A logical argument deals with understanding the behavior of the opponent and making the argument with facts and figures.

The session had 40 students of rostrums who took part actively in the activities that followed in the session.

Mr. Ranjan Bellarpady
Chief coordinator, Swacch Manas,
Ramakrishna Matt

TOPIC: “Swacch Manas”

DATE: 7th March, 2019

VENUE: AIET Auditorium

INVITE

The poster for the Swacch Soch Seminar features the Ramakrishna Mission Swachhata Abhiyan 5th Phase 2018-19 logo at the top left. The central graphic includes the 'SWACC Soch Seminar' logo, where 'Soch' is stylized with a lightbulb inside the 'o'. To the right is a calendar icon showing 'MARCH 07'. Below the calendar, it says '@ Alva's Centre for Post Graduate Studies & Research Moodubidire'. At the bottom, it states 'Organised by Ramakrishna Mission Mangaluru'. Logos for ONGC and MARPL (Principal Patron) are shown, along with the 'Swachh Bharat' logo and the text 'A Novel Initiative by Ramakrishna Mission On Special request from Govt. of India'.

REPORT

Rostrum – The speakers' club along with the Ramakrishna Mission Mangalore hosted “Swacch Soch Seminar” for the first year students of AIET. The faculty coordinator Mr. Deepak Raj and Dr. Dattathreya, Dean –Planning, AIET were present during the function.

Event: Ranjan addressed that the Mission came out with a pot composting initiative wherein wet waste generated in the household does

ALVA'S INSTITUTE OF ENGINEERING & TECHNOLOGY

Phone: 08258-262725, Fax: 08258-262726

not cross one's door and instead becomes rich manure. Mr. Bellarpady noted that a major problem with solid waste management would be addressed if the wet is properly handled at source itself. Hence, the Mission is working extensively in popularizing the pot composting system and has plans in the coming days to buy dry waste too from households.

He said Swami Ekagamyanda, coordinator of the Mission's Swachh Mangaluru Abhiyan, has envisaged the pot composting and dry waste collection system on the premise that if waste generates money, people would participate in such a movement. At the same time, though people were keen on reducing wet waste generation or handling it properly, they had few avenues to do so; pot composting is a good option for them. The session had an oath taking at end of the session that we youth will not contribute for the pollution.
